29159. Notice of a special bond election shall be given by publication of the text of the resolution calling the election and except as provided below the text thereof shall be published once a week in each calendar week for two successive calendar weeks at any time prior to the election (the first publication of which shall be not less than twenty (20) days nor more than ninety (90) days prior to the date fixed for the election) in at least one newspaper of general circulation and in not more than three newspapers, designated by the board, which are printed and published in each county within the district. That portion of the resolution constituting notice of election as published in each county shall contain only the reference to the precincts, polling places, and election officers in the county or portion of the county in which it is published, and it shall not be necessary to publish any portion of the resolution setting forth the precincts, polling places or election officers in any other county. Except for the omission in any county of the reference to the precinct, polling place and election officers in any other county, the text of the resolution as published in each county to constitute notice of said election shall be the resolution in form as adopted by the board. To each resolution published in each county there shall be set forth a notice substantially as follows:

"NOTICE OF ELECTION

NOTICE is hereby given to the qualified electors of the San Francisco Bay Area Rapid Transit District that the Board of Directors has duly adopted a resolution calling a special bond election within the District which is set forth in full below, except only for the omission of the designation of the precinct, polling place and officers of election in any county or portion of a county in

which such election is to be held except only the designation of such election details as the same pertain to the county or portion of a county in which the attached resolution is published, which election details are set forth in the following text of the resolution."

If there is no newspaper published in any county within the district, the notice shall be posted in three public places in such county.

29160. All the expenses of holding the election shall be borne by the district, except when the election is consolidated with another election pursuant to Chapter 4 (commencing at Section 10050), Part 2, Division 11 of the Elections Code, in which case the expense borne by the district shall be that agreed upon by the district and the other governing body or bodies calling the election.

29161. No error, irregularity or omission in the calling, holding or conducting of any special bond election which does not affect the substantial rights of the taxpayers within the district or the electors voting at any election at which bonds of the district are authorized to be issued shall invalidate the election or any bonds authorized thereat.

29162. The returns of the election shall be made and the votes shall be canvassed by the county clerk in each county contained in the district, within thirty (30) days after holding of the election, and the county clerks, respectively, shall certify the result of the election in each county, respectively, to the board of the district.

In the event that the election is consolidated with any other election, the returns of the election, the method of canvassing, and the results thereof shall be designated and declared in accordance with Chapter 4 (commencing at Section 10050), Part 2, Division 11 of the Elections Code.

29163. At any special bond election called pursuant to this part, all residents of the district who are qualified electors possessing the qualifications prescribed by the general election laws of the State of California shall be entitled to vote thereat. All special bond elections shall be held and conducted as nearly as practicable in accordance with the general laws of the State of California, including provisions with respect to voting by absent voters, but the requirements as to the form of ballots need not apply except to the extent adopted by the board. Whether a resident of the district is a qualified elector within the district shall be conclusively determined by the last great register of voters of the county or portion of the county in which the election is held. Except when the special bond election is consolidated with any other election, the board shall designate the hours during which the polls shall be kept open. The polls shall not be opened before 7 a.m. nor kept open later than 8 p.m. and shall be kept open for not less than four hours.

29164. At any special bond election two or more propositions for incurring indebtedness may be submitted at the same election in which event the votes cast for and against each proposition shall be counted separately, and whenever two-thirds of the qualified electors voting on any one of such propositions vote in favor thereof such proposition shall be deemed adopted.

Article 2. Form and Terms of General Obligation Bonds

29169. Whenever two-thirds of the votes cast at any special bond election or on any proposition submitted thereat are in favor of incurring the indebtedness set forth in such proposition, the board may by resolution at any time it deems proper, or from time to time, provide for the authorization and issuance of the bonds not exceeding the amount authorized at such election.

29170. Bonds may be issued in form payable to bearer, with coupons attached for payment of interest and, if so issued, may be made subject to registration. Bonds issued in bearer form shall constitute negotiable instruments for all purposes under the laws of the State of California. The district may appoint a registration agent which may be a bank or trust company and authorize such registration agent to maintain books of registry and to register, authenticate and exchange bonds on such terms and conditions and pursuant to such rules and regulations as the district may provide. The district may provide for the interchange of coupon bonds for registered bonds and registered bonds for coupon bonds, and may provide that the bonds shall be registered as to the principal only, or as to both principal and interest, or otherwise, as the district may determine.

29171. Coupon bonds may be issued in such denomination as the district may determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000).

29172. Registered bonds may be issued without limitation as to principal amount, as may be determined by the district, except that registered bonds shall be in denominations of one thousand dollars ($1,000) or multiples thereof.

29173. Bonds shall bear interest at a rate of not to exceed 6 percent per annum, payable semiannually, except that interest for the first year or any fraction thereof may be paid in one installment.

29174. The district may provide for redemption of bonds prior to maturity, on such notice and at such time or times and with such redemption provisions, including premiums, as the district may determine, provided that no redemption premium shall

be in excess of 6 percent of the principal amount of the bonds to be redeemed. No bond is subject to call or redemption prior to its fixed maturity date, unless the right to exercise such call and the redemption price are expressly stated on the face of the bond. When bonds have been validly called for redemption and payment of the principal thereof, and the interest thereon accrued to the date of redemption, together with the redemption premium, if any, shall have been made or provided for, interest thereon shall cease.

29175. The district may provide for the payment of the principal and interest of bonds at any place within the State of California, or at any other place within the United States, which the district may designate. The place of payment shall be specified in the bonds and payment shall be made in any coin or currency of the United States of America which at the time of payment is legal tender for public and private debts.

29176. Bonds shall bear dates prescribed by the district.

29177. Bonds may be serial or sinking fund bonds, or in part serially and in part sinking fund bonds, with such maturities and in such amounts annually, semiannually or otherwise, as the district may determine at the time of authorizing the issuance thereof.

29178. No bond by its terms shall mature in more than fifty (50) years from its own date, and in the event any authorized issue is divided into two or more series or divisions, the maximum maturity herein authorized shall be calculated from the date on the face of each bond, separately, irrespective of the fact that different dates may be prescribed for the bonds of each separate series or division of any authorized issue.

29179. The district may divide any authorized issue into one or more series or division and fix different dates and different maturity dates for the bonds of each series or division.

29180. The district may prescribe the form of such bonds, and of the interest coupons attached thereto. Bonds shall be signed by the president of the board (or such other member of the board as the board shall by resolution designate) and countersigned by the secretary of the district and the seal of the district shall be affixed thereto. The interest coupons on said bonds shall be numbered consecutively and signed by the treasurer of said district. The signature on all coupons and one signature on the bonds may be engraved, lithographed, or printed facsimile signature. The seal of the district may be affixed to any bond by mechanical reproduction of a facsimile thereof. In case any officer whose signature or countersignature appearing on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or countersignature shall nevertheless be valid and sufficient for all purposes, the same as if such officer had remained in office until the delivery of the bonds.

29181. Pending the actual issuance or delivery of bonds, the district may issue temporary or interim bonds, certificates, or receipts, of any denomination whatsoever, with or without coupon, and in such form as may be prescribed by the board, to be exchanged for definitive bonds when ready for delivery.

29182. The district may provide that interest on bonds may be paid out of the proceeds of the sale of the bonds during the actual construction of any project, for the acquisition, construction, or completion of which bonds have been issued, and for a period of not to exceed three years thereafter, as determined by the district.

29183. The district shall provide for the payment of the principal of and interest on the bonds by the levy and collection of taxes upon all property in the district subject to taxation by the district without limitation of rate or amount as provided in Sections 29121 and 29122 of this part, except that such taxes need not be levied to the extent that the district deposits in the Treasury set apart for that purpose moneys derived from surplus revenues or any appropriations which may be made to it for that purpose or from any other funds howsoever derived.

29184. Any general obligation bonds which shall be issued under the provisions of this part shall be legal investment for all trust funds; for the funds of insurance companies, banks both commercial and savings—and trust companies; and for state school funds; and whenever any money or funds may, by any law now or hereafter enacted, be invested in bonds of cities, cities and counties, counties, school districts, or irrigation districts within the State of California, such money or funds may be invested in the general obligation bonds issued under this part, and whenever bonds of cities, cities and counties, counties, school districts, or irrigation districts within this State may, by any law now or hereafter enacted, be used as security for the performance of any act or the deposit of any public moneys, the said bonds issued under this part may be so used. The provisions of this part shall be in addition to all other laws relating to legal investments and shall be controlling as the latest expression of the legislation with respect thereto.

29185. All bonds issued by the district under the provisions of this part, and the interest thereon, are free and exempt from all taxation within the State of California, except for transfer, franchise, inheritance and estate taxes.

29186. Prior to the issuance of any bonds, the district may commence a special proceeding to determine the right to issue the bonds and their validity. Such proceedings shall be instituted and prosecuted in accordance with Article 2 (commencing at Section 22670), Chapter 4, Part 5, Division 11 of the Water Code, and these sections apply to and govern all such proceedings instituted under this part. Such proceeding is a proceeding in rem and the judgment rendered therein is conclusive against all persons whomsoever and against the State of California.

29187. Any person who, without probable cause, institutes in any court, state or federal, any action or proceeding contesting the validity of the issuance or sale by the district of any bonds authorized by this part, and who does not prevail in such action or proceeding, shall be liable in damages to the district, in an amount which will compensate the district for all the detriment proximately caused thereby, or which, in the ordinary cause of things, would be likely to result therefrom. He shall also be liable for the costs and attorney's fees paid or incurred in the defense of the action or proceeding. No proceeding of a kind described in this section shall be instituted following the expiration of six months from and after the date of the election authorizing the issuance of the bonds involved.

Article 3. Issuance and Sale of General Obligation Bonds

29200. The district may by resolution at any time, or from time to time, provide for the authorization and issuance of any bonds authorized pursuant to this part and for the sale of the whole or any part thereof.

29201. Before making a sale of any of the bonds, notice shall be given by publication once a week, for two weeks, in a newspaper of general circulation in the district, if there is one, and no sale shall be held prior to the expiration of 15 days from the first publication of the notice. Copies of such advertisement may be published in any newspaper or financial publication in the United States and copies may be mailed to recognized investment dealers, banks, investing institutions and statistical organizations, together with any related material pertaining to the district and its bonds, but no defect in any such additional publication or failure to mail or failure of any person to receive copies of any such materials so mailed shall affect the validity of the sale.

29202. The published notice of sale shall describe the bonds and set forth the terms and conditions of sale, including the following:

(a) It shall state that sealed proposals for the bonds to be sold will be received, opened publicly at the time and place stated in the Notice of Sale, and not before, and shall be publicly announced.

(b) It shall invite bidders to name the rate or rates of interest to be borne by the bonds, which rate or rates shall be stated in multiples of one-eighth or one-tenth of 1 per centum, but in no event exceed 6 per centum per annum, payable as provided in the notice of sale. Bidders may be permitted to bid different rates of interest and to split rates irrespective of the maturities of said bonds, within such limitations as the notice of sale may provide.

(c) It shall state that the bonds will not be sold for less than the par value of such bonds, and accrued interest at the stated rate or rates thereon to date of payment of the purchase price.

(d) It shall state that the bonds will be awarded to the highest responsible bidder or bidders considering the interest rate or rates specified and the premium offered, if any. The highest bid will be determined by deducting the amount of the premium bid (if any) from the total amount of interest which the district would be required to pay from the date of said bonds to the respective maturity dates thereof at the coupon rate or rates specified in the bid and the award will be made on the basis of the lowest net interest cost to the district. The lowest net interest cost shall be computed on a 360-day year basis.

(e) It shall require all bidders to deposit a certified or cashier's check, drawn on a bank or trust company transacting business in the State of California, payable to the order of the district treasurer, in an amount up to, but not exceeding, 2 per centum of the par value of the bonds proposed to be sold, to partially secure the district from any loss resulting from the failure of the bidder to comply with the term of his bid. The specific amount of the good faith deposit required of all bidders will be stated in the notice of sale. The good faith deposits of unsuccessful bidders will be returned by mail or personal delivery at the time of making the award to the successful bidder. No interest will be paid upon deposit made by the successful bidder.

(f) It shall state that the district shall reject any and all bids which do not comply with the terms of the notice. Any bidder whose bid has been rejected by reason of any irregularity or informality or other defect in the bid shall be disqualified from purchasing the bonds offered pursuant to the notice of sale at any subsequent private sale of the same bonds.

(g) It shall state that if no bids are received, or if the highest bid received is not satisfactory as to price, the district may reject all bids received, if any, and either re-advertise or sell the bonds at private sale. However, if the bonds are to be sold at private sale, they may not be sold at a price lower than the highest bid received at public sale. Bidders whose bids have been rejected at public sale because

of irregularity or informality in their bids will not be permitted to bid at private sale.

(h) It shall state that the district will take action awarding the bonds or rejecting all bids not later than 24 hours after expiration of the time prescribed in the notice for receipt of proposals, provided that the award may be made after the expiration of the specified time, if the bidder shall not have given the district notice in writing of the withdrawal of such proposal.

(i) It shall state that delivery of bonds will be made to the successful bidder at a designated office as soon as the bonds can be prepared (but not prior to the date of the bonds). The district may also provide for delivery of bonds at such place or places, anywhere in the United States, as may be specified in the notice of sale and for receipt and transmittal of purchase price in cash or bank credits in the form of certified Federal Reserve Bank funds. The cost of printing, engraving, or lithographing the bonds will be borne by the district.

(j) It shall provide that the successful bidder shall have the right, at his option, to cancel the contract of purchase if the bonds are not tendered for delivery within 60 days from the date of sale thereof, and in such event the successful bidder shall be entitled to the return of the deposit accompanying his bid.

(k) It shall provide that if prior to the delivery of the bonds the income received by private holders from bonds of the same type and character shall be declared to be taxable under any federal income tax laws, either by the term of such laws or by ruling of a federal income tax authority or official, which is followed by the Internal Revenue Service or by decision of any federal court, the successful bidder may at his option prior to the tender of said bonds by the district, be relieved of his obligation under the contract to purchase the bonds and in such case the deposit accompanying his bid will be returned.

(l) It shall state that there is no controversy or litigation pending or threatened concerning the validity of the bonds to be sold, the corporate existence of said district, or the title of the officers to their respective offices, and the district will deliver to the successful bidder a no-litigation certificate certifying to the foregoing as of and at the same time of delivery of the bonds.

(m) It shall state that a legal opinion from a nationally recognized firm of municipal bond attorneys, approving the validity of bonds in all respects, will be furnished to the successful bidder without charge.

Article 4. Refunding Bonds

29210. The district may provide for the funding or refunding of outstanding general obligation indebtedness pursuant to this article, if any of the following conditions exist:

(a) The district has indebtedness evidenced by bonds, notes, or other evidences of indebtedness, which according to their terms are subject to call or payment before maturity.

(b) The district has filed a petition under any bankruptcy law of the United States and refunding of its indebtedness is authorized in the bankruptcy proceedings.

(c) The holder or holders of outstanding indebtedness has consented to exchange such outstanding bonds for refunding bonds bearing a lower rate of interest than such outstanding bonds.

29211. The district by a two-thirds vote of the board may fund or refund its general obligation indebtedness at, after, or before maturity and issue refunding bonds of the district to refund the indebtedness evidenced by such outstanding securities.

29212. Refunding general obligations may be issued and may be sold in accordance with the provisions set forth in Articles 2 and 3 of this chapter, except that no election need be called or held for the purpose of authorizing the issuance of refunding bonds and such refunding bonds may be sold and the proceeds thereof applied to the redemption of bonds of indebtedness or may be exchanged at not less than their par value for the evidences of indebtedness to be refunded.

29213. Refunding bonds issued pursuant to this article will have the same weight and force and may be used in the same manner as the bonds to be refunded.

29214. The proceeds of any sale of refunding bonds for cash shall be deposited with the treasurer or depositary, as determined by the district, to the credit of the Funding Fund, and applied only to refunding the indebtedness for which the bonds are issued.

29215. Any proceeds of the refunding bonds remaining after the indebtedness has been paid shall be deposited in the fund established for the payment of principal and interest on the refunding bonds and used only for the purpose of paying such principal or interest as it matures.

29216. At the time of making the general tax levy after incurring the bonded indebtedness and annually thereafter until the refunding bonds are paid or until there is a sum in the treasury set apart for that purpose sufficient to meet all payments of principal and interest on the bonds as they become due, the district shall

levy and collect a tax sufficient to pay the interest on the bonds and such part of the principal as will become due before the proceeds of the next general tax levy will be available.

29217. If the earliest maturity of the refunding bonds is more than one year after the date of issuance, the board shall levy and collect annually a tax sufficient to pay the interest as it falls due and to constitute a sinking fund for payment of the principal on or before maturity.

29218. The taxes shall be levied and collected as other district taxes, and are in addition to all other taxes. They shall be used only for the payment of the bonds and interest thereon.

29219. Refunding bonds may be issued in a principal amount sufficient to provide funds for (a) the payment of the principal of and interest on the bonds, notes or other evidences of indebtedness to be refunded; (b) all expenses incidental to the calling, retirement or payment of the outstanding bonds, notes or other evidences of indebtedness and the issuance of refunding bonds including the difference in amount between the par value of the refunding bonds and any amount less than par; (c) any amount necessary to be made available for the payment of interest upon the refunding bonds from the date of their delivery to the date of maturity or payment of the bonds, notes or other evidences of indebtedness to be refunded out of the proceeds of sale or the date upon which the bonds, notes or evidences of indebtedness to be refunded will be paid pursuant to call and redemption thereof or pursuant to any agreement with the holders thereof for the refunding or exchanging of such bonds, notes or other evidences of indebtedness; and (d) the premium if any necessary to be paid in order to call and retire the outstanding bonds, notes or other evidences of indebtedness to be refunded. Refunding bonds may be exchanged at not less than their par value and accrued interest for outstanding bonds, notes or other evidences of indebtedness to be refunded thereby.

29220. When sufficient money is in the Funding Fund to redeem one or more outstanding past due bonds, notes or other evidences of indebtedness, or to redeem one or more of the outstanding bonds, notes or other evidences of indebtedness, which are subejct to call or payment before maturity, and which are proposed to be funded or refunded, the treasurer shall publish a notice that he is prepared to pay the bond, note or other evidence of indebtedness (giving its number, if any). The notice shall be published once a week for two weeks in a newspaper of general circulation in the district, if there is one. Copies of such advertisement may be published in any newspaper or financial publication in the United States. If the bond, note or other evidence of indebtedness to be called for redemption or refunded is not presented for redemption on or before the date specified for redemption, as set forth on the face of such outstanding bond, note or other evidence of indebtedness, interest thereon shall cease.

29221. At the same time, the treasurer shall deposit in the post office a copy of the notice, enclosed in a sealed envelope, postage prepaid, addressed to the registered owner of any such bond, note, or other evidence of indebtedness, registered pursuant to this part, whose address appears upon the record in the treasurer's office. If the bond, note, or other evidence of indebtedness is not presented within the time specified in the notice, the interest upon it ceases and the amount due shall be set aside for the payment when presented.

29222. When any outstanding bonds, notes or other evidence of indebtedness are surrendered and paid, the treasurer shall cancel them by endorsing on their faces the amount for which they are received, "canceled," and the date of cancellation.

29223. The treasurer shall keep a record of bonds, notes, or other evidences of indebtedness redeemed, and report the redemption to the board. The report shall be made at least once a month, and shall be accompanied by the bonds, notes, or other evidence of indebtedness which have been taken up and canceled.

29224. Any money remaining in the Funding Fund, after all outstanding bonds, warrants, judgments, notes, or other evidences of indebtedness proposed to be refunded have been taken up and canceled, shall be deposited in the fund established for the payment of principal and interest on the refunding bonds and used only for paying such principal or interest as they mature.

29225. Refunding of revenue bonds of the district may be accomplished in the manner provided by the Revenue Bond Law of 1941, all of the provisions of which are hereby made applicable to the district.

Article 5. Temporary Borrowing

29230. The district may borrow money for the purpose of defraying general administrative and preliminary expenses of the district, lawfully incurred, prior to the time moneys to be raised by the first tax levy for the district are available, a sum which shall not exceed five cents ($0.05) on each one hundred dollars ($100) of assessed valuation of taxable property in the district at the time the moneys are borrowed, and to evidence such borrowing by notes bearing interest at a rate not to exceed six (6) percentum per annum. The notes shall be payable from the first tax levy made by the district and the tax levy shall contain a sum sufficient to provide for

the payment of the notes and the interest thereon. The form of said notes their issuance and sale, will be governed by the applicable provisions referred to in Section 29231. The maturity of said notes shall not exceed two (2) years.

29231. The district may borrow money in accordance with the provisions of Article 7 (commencing at Section 53820), Chapter 4, Part 1, Division 2, Title 5 of the Government Code, and these sections apply to and govern all such proceedings instituted under this part.

Article 6. Revenue Bonds

29240. As an alternative procedure for the raising of funds, the district is hereby authorized to issue bonds, payable from revenues of any facility or enterprise to be acquired or constructed by the district, in the manner provided by the Revenue Bond Law of 1941, all of the provisions of which are hereby made applicable to the district.

29241. The district is hereby declared to be a local agency within the meaning of the Revenue Bond Law of 1941. The term "enterprise" as used in the Revenue Bond Law of 1941 shall for all purposes of this part include rapid transit facilities and any and all parts thereof and all additions, extensions and improvements thereto and all other facilities authorized to be acquired, constructed or completed by the district under this part. The district may issue revenue bonds under such law for any one or more facilities or enterprises authorized to be acquired, constructed or completed by the district, or in the alternative, may issue revenue bonds under such law for the acquisition, construction and completion of any one of such facilities and also issue bonds payable from assessments in accordance with the procedure provided by this part for any other of such facilities. Article 7. Equipment Trust Certificates

29250. The district shall have power to purchase equipment such as cars, trolley busses and motor busses, rolling equipment, and may execute agreements, leases and equipment trust certificates in the forms customarily used by private corporations engaged in the rapid transit business appropriate to effect such purchase and leasing of rolling equipment and may dispose of such equipment trust certificates upon such terms and conditions as the board may deem appropriate. All money required to be paid by the district under the provisions of such agreements, leases and equipment trust certificates shall be payable solely from the revenue or income to be derived from the transportation system and from grants and loans as provided in Section 29083 of this part. Payment for such equipment, or rentals therefor, may be made in installments, and the deferred installments may be evidenced by equipment trust certificates payable solely from such revenue or income, and title to such equipment shall not vest in the district until the equipment trust certificates are paid.

29251. The agreement to purchase or lease may direct the vendor or lessor to sell and assign or lease the rolling equipment to a bank or trust company duly authorized to transact business in the State of California as trustee, lessor or vendor for the benefit and security of the equipment trust certificates and may direct such trustee to deliver the rolling equipment to one or more designated officers of the district and may authorize the district to simultaneously therewith execute and deliver an installment purchase agreement or a lease of the equipment to the district.

29253. The covenants, conditions and provisions of the agreements, leases, and equipment trust certificates shall not conflict with any of the provisions of any trust agreement securing the payment of bonds, notes or certificates of the district.

29254. An executed copy of each such agreement and lease shall be filed in the office of the Secretary of State, who shall be entitled to receive one dollar for each such copy filed with him and which filing shall constitute notice to any subsequent judgment creditor or any subsequent purchaser. MOTION TO PRINT OPINION OF LEGISLATIVE COUNSEL

Senator Collier moved that the following opinion of the Legislative Counsel regarding Public Utility Property Assessment be printed in the Journal.

Motion carried.

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, January 19, 1957

Hon. Randolph Collier
Senate Chamber

Public Utility Property Assessment—No. 5846

DEAR SENATOR COLLIER:

Questions

You have directed our attention to Section 14 of Article XIII of the State Constitution, which provides:

> "* * * all property, other than franchises, owned or used by * * * companies engaged in the transmission or sale of gas or electricity, shall be assessed annually by the State Board of Equalization, at the actual value of such property."

With respect to this provision, you have asked us:

(a) Is the State Board of Equalization required to assess all property owned or used by companies engaged in the production and sale of petroleum and petroleum products if such companies are also engaged in the transmission or sale of gas?

(b) Is the State Board of Equalization required to assess all of the property owned or used by a company selling natural gas when such company is the wholly-owned subsidiary of a gas and electric utility and when all sales are made to the parent company?

Opinion

Both questions which you have asked are, so far as we know, undecided in the appellate courts of this State, and the questions therefore cannot be answered as certainly as if there were court decisions. Subject to this qualification, it is our opinion that the answers to both your questions are in the affirmative.

Analysis

Prior to the adoption of the above quoted constitutional provision on June 27, 1933, the Constitution of the State, since November 8, 1910,

had provided that: " * * * companies engaged in the transmission or sale of gas or electricity shall annually pay to the State a tax upon their * * * property, or any part thereof used exclusively in the operation of their business in this State * * *."

The California cases under that provision were summarized by the Supreme Court, adopting an opinion of the district court of appeal, as follows:

> "The holding of all of the cases which we have cited is to the effect that the language of the Constitution specifying that the property or severable portion thereof, must be exclusively used by the public utility in order to exempt it from local taxation is plain, definite and certain, and requires no construction as contended for by the petitioners, but only an application to the circumstances presented for consideration and determination of whether the property is so exclusively used. * * * The fact that the State Board of Equalization, upon a report including proceeds derived from 'dual use property', levies a tax accordingly, and the petitioners voluntarily pay such tax, in nowise presents the question of taking property without due process of law, nor does it bar the constitutional right of local authorities to levy and collect a tax upon such 'dual use property'." (*Hobart Estate Company* v. *Waters* (1934), 220 Cal. 669, 679.)

The fact that there was a problem of so-called dual use property under the former constitutional provision which required the property to be exclusively used in the operation of the public utility business is persuasive of the view that the subsequent constitutional provision, which we are now interpreting, in referring to all property of certain companies does not distinguish between property used in different types of operations of such companies (*Clements* v. *Bechtel Company* (1954), 43 Cal. 2d 227).

Turning to your second question, it would appear that a company selling or transmitting gas, or operating a gas pipeline in more than one county, is directly within the present constitutional provision regardless of it being a subsidiary of a public utility. In coming to this conclusion we have given consideration to the fact that under the former constitutional provision it was held that where one public utility subject to State taxation owned all of the stock of another public utility by itself not so subject, the gross receipts of the latter could be computed with those of the former when the business was substantially one unit (*San Francisco-Oakland Terminal Railways* v. *Johnson* (1930), 210 Cal. 138; cf. *Southern California Edison Company* v. *State Board of Equalization* (1934), 220 Cal. 420). The court in the Terminal Railways case felt that such result carried into effect the intent of the former constitutional provision. We cannot see the basis for any similar result here.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By J. D. STRAUSS, Deputy

LETTER OF TRANSMITTAL

SENATE, CALIFORNIA LEGISLATURE, March 8, 1957

To the President of the Senate, the Speaker of the Assembly, and to Members of the Senate and Assembly

The Joint Committee on Water Problems, created pursuant to Senate Concurrent Resolution No. 84, Resolutions Chapter 249, Statutes 1955, and Senate Concurrent Resolution No. 16, Resolutions Chapter No. 40, Statutes 1956, Regular Session, submits herewith its Eleventh Partial Report.

The California Districts Securities Commission, among other things, is required by law to examine contracts between irrigation districts and the United States Department of the Interior, Bureau of Reclamation. In so doing, this commission has expressed doubt and concern about certain of the terms and conditions contained in several of such contracts brought before it, as to legality and constitutionality under state law. The commission expressed the view, however, that these questions properly were matters for the courts to determine. The entire situation was made a matter of serious study and investigation by the Joint Committee on Water Problems. Report thereon specifically was made to the Legislature by your joint committee's partial report to the Legislature, 1952 Regular Session, transmitted March 13, 1952, and again in its Second Partial Report transmitted as of August, 1952.

The principal case involved was *The Ivanhoe Irrigation District* v. *All Parties and Persons in the Superior Court of the State of California in and for the County of Tulare*, a proceeding brought by the District for validation of a water contract with the United States acting by and through the Bureau of Reclamation. Set out in the above Second Partial Report is the memorandum of decision thereon rendered on July 31, 1952 by Judge Benjamin C. Jones refusing validation of the contract.

The *Ivanhoe* case, together with three other cases covering similar issues, *Albonico* v. *Madera Irrigation District*, *Madera Irrigation District* v. *All Persons*, and *Santa Barbara County Water Agency* v. *All Persons*, were appealed to the Supreme Court of the State of California, which combined them for hearing. On January 24, 1957, the California Supreme Court issued its decisions in the above matters.

In order to complete the record as heretofore presented to the Legislature through former reports, and in view of the impact of these court decrees on the water law of this State, it appears to the best interests of the public that these decisions of the Supreme Court be made available with dispatch to all members of the Legislature. They are, therefore, combined and transmitted herewith as the Eleventh Partial Report of your Joint Committee on Water Problems.

STATE OF CALIFORNIA, DEPARTMENT OF WATER RESOURCES
SACRAMENTO, March 6, 1957

Hon. J. A. Beek, Secretary of the Senate
State Capitol

DEAR MR. BEEK: There is transmitted herewith Bulletin No. 59 of the Department of Water Resources, entitled "Investigation of Upper Feather River Basin Development, Interim Report on Engineering, Economic, and Financial Feasibility of Initial

Units". This is a report of the investigation conducted as authorized by the Legislature in Item 223.1 of the Budget Act of 1956.

Bulletin No. 59 contains results of studies showing that the Frenchman Project, the Grizzly Valley Project, and the Indian Creek Recreation Project are engineeringly feasible and economically justified. Based upon the assumptions made in the report as to financing, policy for which has not been established by the Legislature, the projects would be financially feasible.

Recommendations are included, with certain qualifications, for the appropriation of funds to be expended on these projects to complete the acquisition of lands, easements, and rights of way, prepare construction plans and specifications, and relocate public utilities.

At a joint public hearing of the State Water Board and the Department of Water Resources, held in Quincy on February 14, 1957, interested individuals and agencies were invited to submit comments on this report. These comments are to be submitted in the 30-day period following the hearing. Following this period, the comments are to be bound and published as a separate appendix to the report.

Very truly yours,

HARVEY O. BANKS, Director of Water Resources
By M. J. SHELTON, Deputy Director

MESSAGES FROM THE GOVERNOR

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 8, 1957

To the Honorable Members of the Senate
State Capitol, Sacramento, California

GENTLEMEN: As a result of appropriations made under Items 223.1 and 419.6 of the Budget Act of 1956, the Department of Water Resources has recently completed and submitted to you its Bulletin No. 59, "Investigation of Upper Feather River Basin Development, Interim Report on Engineering, Economic, and Financial Feasibility of Initial Units." This report presents the results of engineering, economic and financial studies of five local water development projects in the Upper Feather River Basin; namely, Grizzly Valley Reservoir and Frenchman Reservoir, which would be used for both irrigation and recreational purposes, and Antelope Valley Reservoir, Dixie Refuge Reservoir, and Abbey Bridge Reservoir, which have recreational development as their primary function.

The department recommends that the Legislature establish definite policies for the financing and construction of such needed local water development projects for which there is determined to be a substantial amount of state interest.

Among the policy questions which must be resolved before action can be taken on the recommendations of Bulletin 59, are:

1. To what extent is it a state responsibility to finance and construct recreational and fish and wild life facilities associated with water development, in which there is in fact a substantial degree of state interest?
2. Should the cost of such recreational and fish and wild life facilities be nonreimbursable?
3. Should the State contribute the cost of lands, easements, rights-of-way and relocation of utilities on a non-reimbursable cost basis, for water development projects in which there is a substantial degree of State interest?
4. What agencies of the State, or what local agencies, should operate and maintain recreational and fish and wildlife facilities associated with water development?

In my message to the California Legislature of January 7, 1957, I pointed out that the Legislature will be called upon to formulate definite policy as to the source of funds for construction of recreational facilities associated with water development, such as those presented in Bulletin No. 59.

The Director of Water Resources and the staff of the Department of Water Resources, as well as other State departments, will be glad to consult with you and to provide needed information to assist you in arrivng at sound policy decisions in these matters.

Cordially,

GOODWIN J. KNIGHT, Governor

LETTER OF TRANSMITTAL

JOINT LEGISLATIVE COMMITTEE ON
AGRICULTURAL AND LIVESTOCK PROBLEMS
SENATE, CALIFORNIA LEGISLATURE, March 11, 1957

To the President of the Senate, the Speaker of the Assembly,
and Other Members of the Senate and Assembly

The Joint Legislative Committee on Agricultural and Livestock Problems, initially created by S.C.R. 51 (Res. Ch. 141) Regular Session of 1945, reconstituted at succeeding Regular Sessions and presently functioning pursuant to the provisions of S.C.R. 85 (Res. Ch. 250) Regular Session of 1955, submits a report on grazing concessions on Cuyamaca Rancho and Anza Desert State Parks by B. A. Madson.

On July 15, 1955, the subject matter of Senate Resolution 174, 1955 Regular Session, relating to a study of grazing concessions in State Parks, was referred to this committee for interim study by the Senate Rules Committee. The subject matter of this resolution was fully considered by the committee at a meeting held in Los Angeles on February 3, 1956, at which time the committee's chairman was authorized to retain the services of a range management expert to inspect the areas referred to in Senate Resolution 174, and report his findings to the committee.

The committee is indeed fortunate in having secured the services of Professor B. A. Madson, University of California (retired) to undertake this study. Professor

Madson is recognized as a national authority in his field and, in addition, enjoys the confidence and trust of proponents of both points of view in the matter of grazing concessions in State Parks.

In the introduction to Mr. Madson's report, you will find outlined chronologically the action taken by the Joint Legislative Committee on Agricultural and Livestock Problems pursuant to the provisions of Senate Resolution 174 and the subsequent recommendations by the committee based on the observations made by Mr. Madson in his report.

Arrangements have been made for Mr. Madson to complete his supplemental investigation of the effects of grazing concessions on Cuyamaca Rancho and Anza Desert State Parks. It is hoped that Mr. Madson's report, based on his supplemental investigation, can be submitted to you for your consideration no later than March 30, 1957.

Respectfully submitted,

1469. The department shall, when authorized by the board, construct in accordance with law such facilities as are suitable for the purpose for which the lands or rights in land or water, or water rights were acquired. Each completed unit of the program shall be managed and maintained by the department.

The department, with the approval of the Department of Finance, may enter into agreements with any other department or agency of this State, a county, city, public corporation, or public district of this State, to provide for the construction, management or maintenance of the facilities authorized by the board, and such other department or agency of this State, county, city, public corporation, or public district are, and each of them is, hereby authorized to construct, manage, or maintain such facilities pursuant to such agreement. Work performed by a county, city, public corporation, or public district under such agreements shall be exempt from the provisions of Chapter 3 (commencing at Section 14250), Part 5, Division 3, Title 2 of the Government Code.

SEC. 2. Section 1473 is added to said code, to read:

1473. The board may authorize the acquisition of such lands or rights in land as may be necessary for the purpose of furnishing public access to lands or waters open to the public for fishing, hunting and shooting. The board may authorize such acquisition by the department.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Department of Fish and Game has lands and rights in land and water which can, with construction, management, and maintenance of the facilities contemplated by this act, be made more useful in providing the public with fishing, hunting, and shooting, and in preserving the wild life of this State. There are lands open to the public for fishing, hunting, and shooting, which are without public access. Delay in providing for the facilities contemplated by this act and delay in acquisition of the rights of way contemplated by this act, is wasteful of the wild life resources of this State and would needlessly deny recreational opportunities to its citizens. Immediate effectiveness of this act will permit establishment of needed facilities and acquisition of necessary rights of way before the ensuing hunting and fishing seasons."

COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

LOS ANGELES CHAMBER OF COMMERCE
LOS ANGELES 54, March 8, 1957

The Honorable J. A. Beek
Secretary of the Senate, State of California
Senate Chambers, Sacramento 14, California

DEAR MR. BEEK: Enclosed is a communication to the Senate of the State of California which we should appreciate having printed in the Senate Journal at the first opportunity.

Sincerely yours,

HAROLD W. WRIGHT, General Manager

Enclosure

To the Senate of the State of California:

Last year, the Los Angeles Chamber of Commerce urged the Governor to include in his call of the Extraordinary Session which ran concurrently with the Budget Session, consideration of legislation to conform the provisions of Section 17208 and 24349 of the Revenue and Taxation Code to the provisions of Section 167 of the 1954 Internal Revenue Code relating to depreciation allowances. In the Governor's wisdom, the subject was not included.

There are now before the Legislature a number of bills, assigned to the Revenue and Taxation Committees of both Houses, which would result in conforming the federal and state laws on depreciation allowances. We urge the favorable consideration by your honorable body of such legislation.

Internal Revenue Code Section 167, as enacted in 1954, permits the use of alternative methods of computing depreciation on property used in a trade or business or held for the production of income, allowing, in addition to the straight-line method, the declining balance and the sum of the years-digit methods of calculation.

Our California laws provide for a "reasonable allowance for the exhaustion, wear and tear of property used in the trade or business or of property held for the production of taxable income, including a reasonable allowance for obsolescence." While it would seem that the federal depreciation allowances must be reasonable on their face, or they would not have been incorporated into the federal law, we are informed that the Franchise Tax Board has refused to recognize the new methods allowed by Section 167 of the Internal Revenue Code.

Therefore, the conformance of the two laws becomes of real necessity.

The Los Angeles Chamber of Commerce believes that the general public interest would be served by conforming the provisions. The effect of the accelerated methods is to permit early depreciation. This serves as an added inducement to replace old equipment, decrease obsolescence, and stimulate the purchase of improved equipment and use of better methods by business and industry.

Failure to conform the two laws can result only in substantial confusion and the onerous necessity of keeping duplicate records and making separate computations to calculate the depreciation allowances under state regulations—a waste of valuable time for taxpayers and tax administrators alike.

Our plea for conformance of these laws on depreciation allowances is in line with the spirit and intent of the Legislature, as expressed in Assembly Concurrent Resolution No. 26, adopted by your Honorable Body on January 23, 1957, to provide a good "business climate" in California.

Respectfully submitted,

CHARLES E. DUCOMMUN, President

LETTER OF TRANSMITTAL

SENATE, CALIFORNIA LEGISLATURE

March 12, 1957

To the President of the Senate, the Speaker of the Assembly, and to Members of the Senate and Assembly:

The Joint Committee on Water Problems, created pursuant to Senate Concurrent Resolution No. 84, Resolutions Chapter 249, Statutes 1955, and Senate Concurrent Resolution No. 16, Resolutions Chapter No. 40, Statutes 1956, Regular Session, submits, as its Tenth Partial Report, the results of its investigation and study of the lack of proper drainage facilities in the San Joaquin Valley of California.

Meetings held by your Joint Committee on Water Problems in Los Banos during October of 1956 conclusively indicated that degradation in water quality and the water logging of formerly highly productive agricultural lands, principally on the west side of the San Joaquin Valley, already have injuriously affected the economy of the entire valley through reduced production and forced changes in crop patterns to less profitable commodities. The investigation shows the immediate need for a thorough survey of water quality and ground water table conditions throughout the entire San Joaquin Valley and the formulation of a comprehensive master drainage works system if the valley's farm economy is to be saved from general collapse.

Respectfully submitted,

Relative to printing the prayers of the Chaplain

Resolved by the Senate of the State of California, That the prayers of the Chaplain of the Senate be printed each day in the Senate Daily Journal.

Resolution read, and referred to Committee on Rules.

By Senator Gibson:

Senate Resolution No. 76

Relative to requesting the Federal Public Housing Administration to withhold certain surplus lands from sale

WHEREAS, The California Legislature now has before it for consideration Senate Bill No. 41 which would establish a North Bay State College, a unit of the California State College System; and

WHEREAS, It has been proposed that this college be located on land declared surplus by the Public Housing Administration of the United States Government, designated as Parcels C and E of Carquinez Heights Housing Project No. Cal 4086, at Vallejo, California; and

WHEREAS, The Public Housing Administration has directed that these parcels be offered for sale on March 25, 1957; and

WHEREAS, The Mare Island Naval Ship Yard and the Mare Island Naval Base, installations of the United States Navy, have also indicated an interest in the establishment of a state college in this vicinity to provide technical training to employees and prospective employees of those installations; and

WHEREAS, The California Legislature also has before it several other bills relating to the establishment of state colleges in other areas of the State and in the interests of good planning and good government wishes to consider all these measures at the same time and to thoroughly explore the various factors involved, thus making it virtually impossible to make any decision on Senate Bill No. 41 prior to the prospective sale date of this land; now, therefore, be it

Resolved by the Senate of the State of California, That the Senate request the Federal Public Housing Administration to delay the date on which Parcels C and E of Carquinez Heights Housing Project No. Cal—4086, be offered for sale until June 12, 1957, the date of the adjournment of the California Legislature, in order to permit full consideration of this matter; and be it further

Resolved, That the Secretary of the Senate is directed to forward a copy of this resolution to the Public Housing Administration, Housing and Home Finance Agency, Department of Health, Education and Welfare, at Washington, D. C., and to the Regional Director, Public Housing Administration, 1360 Mission Street, San Francisco, California.

As used in this act, the term "bonds" means all instruments evidencing an indebtedness of a transit district incurred or to be incurred for any public purpose, and all instruments evidencing the borrowing of money in anticipation of taxes, revenues or other income of such district, and all instruments payable from revenues or special funds of such transit districts, and all instruments funding or refunding any thereof or any indebtedness.

SEC. 2. All transit districts heretofore organized or existing under, or under color of, any law are hereby declared to have been legally organized and to be legally functioning as such transit district. Every such transit district shall have all the rights, powers, and privileges and be subject to all the duties and obligations of such a transit district regularly formed pursuant to law.

SEC. 3. The boundaries of every transit district as heretofore established, defined, or recorded, or as heretofore actually shown on maps or plats used by the assessor, are hereby confirmed, validated, and declared legally established.

SEC. 4. All acts and proceedings heretofore taken by any transit district under any law, or under color of any law, for the annexation or inclusion of territory into any such transit district or for the annexation of any such transit district to

any other such transit district or for the withdrawal or exclusion of territory from any such transit district are hereby confirmed, validated, and declared legally effective. This shall include all acts and proceedings of the governing board of such transit district and of any person, public officer, board or agency heretofore done or taken upon the question of the annexation or inclusion or of the withdrawal or exclusion of such territory.

SEC. 5. All acts and proceedings heretofore taken by or on behalf of any transit district under any law, or under color of any law, for the authorization, issuance, sale, or exchange of bonds of any such transit district for any public purpose are hereby confirmed, validated, and declared legally effective. This shall incude all acts and proceedings of the governing board of such transit district and of any person, public officer, board or agency heretofore done or taken upon the question of the authorization, issuance, sale, or exchange of such bonds.

All bonds of any transit district heretofore issued shall be, in the form and manner in which issued and delivered, the legal, valid and binding obligations of the transit district. All such bonds heretofore authorized to be issued and hereafter issued and delivered in accordance with such authorization shall be the legal, valid and binding obligations of the transit district. Whenever an election has heretofore been called for the purpose of submitting to the voters of any transit district the question of issuing bonds for any public purpose, such bonds, if hereafter authorized by the required vote and in accordance with the proceedings heretofore taken, and issued and delivered in accordance with such authorization, shall be the legal, valid and binding obligations of the transit district.

SEC. 6. (a) This act shall operate to supply such legislative authorization as may be necessary to validate any such acts and proceedings heretofore taken which the Legislature could have supplied or provided for in the law under which such acts or proceedings were taken.

(b) This act shall be limited to the validation of acts and proceedings to the extent to which the same can be effectuated under the State and Federal Constitutions.

(c) Nothing contained herein shall be construed to render the creation of any district, or any change in the boundaries of any district, effective for purposes of assessment or taxation unless the statement, together with the map or plat, required to be filed under Chapter 8 (commencing at Section 54900), Part 1, Division 2, Title 5 of the Government Code, is filed within the time and substantially in the manner required by said sections.

SEC. 7. As used in this act, the word "now" means the date this act takes effect; the word "heretofore" means any time prior to such effective date; and the word "hereafter" means any time subsequent to such effective date.

SEC. 8. This act may be cited as the Transit District Validating Act of 1957.

SEC. 9. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The peace, health and safety of the citizens of the State require the orderly and unhampered functioning of transit districts, and such functioning depends upon the validating of the organization, boundaries, and governing officers or boards of transit districts, and upon the validity of acts, proceedings, and bonds of transit districts, and it is therefore imperative and essential that such matters be validated so that during the period before this act would otherwise become effective:

(1) Citizens of the State can be afforded the services and facilities provided by transit districts;

(2) Public works and construction by transit districts can be commenced and continued without delay or restriction to provide services and facilities required for the public peace, health, and safety, and immediately needed to provide for an increased population.

(3) Transit districts can issue and sell bonds heretofore authorized for the purpose of providing services and facilities required for the public peace, health, and safety, and immediately needed to provide for an increased population, which cannot now be sold because of defects in the organization or boundaries of some transit districts or in the authorization of such bonds, which defects will be cured by this act."

"ARTICLE V. INTERSTATE DIVERSION AND STORAGE RIGHTS; MEASURING DEVICES

A. Each state hereby grants for the benefit of the other and its designees the right to construct and operate facilities for the measurement, diversion, storage and conveyance of water from the Upper Klamath River Basin in one state for use in the other insofar as the exercise of such right may be necessary to effectuate and comply with the terms of this compact. The location of such facilities shall be subject to approval by the commission.

B. Each state or its designee, exercising within the jurisdiction of the other a right granted under subdivision A of this article, shall make provision for the establishment, operation and maintenance of permanent gaging stations at such points on streams or reservoir or conveyance facilties as may be required by the commission for the purpose of ascertaining and recording the volume of diversions by the streams or facilities involved. Said stations shall be equipped with suitable devices for determining the flow of water at all times. All information obtained from such stations shall be compiled in accordance with the standards of the United States Geological Survey, shall be filed with the commission, and shall be available to the public.

ARTICLE VI. ACQUISITION OF PROPERTY FOR STORAGE AND DIVERSION; IN LIEU TAXES

A. Subject to approval of the commission, either state shall have the right (1) to acquire such property rights in the other state as are necessary for the diversion, storage, conveyance, measurement and use of water in conformity with this compact, by donation or purchase, or (2) to elect to have the other state acquire such property rights for it by purchase or through the exercise of the power of eminent domain. A state making the latter election shall make a written request therefor and the other state shall expeditiously acquire said property rights either by purchase at a price satisfactory to the requesting state, or, if such purchase cannot be made, then through the exercise of its power of eminent domain, and shall convey said property rights to the requesting state or its designee. All costs of such acquisition shall be paid by the requesting state. Neither state shall have any greater power to acquire property rights for the other state through the exercise of the power of eminent domain than it would have under its laws to acquire the same property rights for itself.

B. Should any diversion, storage or conveyance facilities be constructed or acquired in either state for the benefit of the other state, as herein provided, the construction, repair, replacement, maintenance and operation of such facilities shall be subject to the laws of the state in which the facilities are located, except that the proper officials of that state shall permit the storage, release and conveyance of any water to which the other state is entitled under this compact.

C. Either state having property rights other than water rights in the other state acquired as provided in this article shall pay to each political subdivision of the state in which such property rights are located, each and every year during which such rights are held, a sum of money equivalent to the average annual amount of taxes assessed against those rights during the ten years preceding the acquisition of such rights in reimbursement for the loss of taxes to such political subdivisions of the state. Payments so made to a political subdivision shall be in lieu of any and all taxes by that subdivision on the property rights for which the payments are made.

ARTICLE VII. POLLUTION CONTROL

A. The states recognize that the growth of population and the economy of the Upper Klamath River Basin can result in pollution of the waters of the Upper Klamath River Basin constituting a menace to the health and welfare of, and occasioning economic loss to, people living or having interests in the Klamath River Basin. The states recognize further that protection of the beneficial uses of the waters of the Klamath River Basin requires cooperative action of the two states in pollution abatement and control.

B. To aid in such pollution abatement and control, the commission shall have the duty and power:

1. To cooperate with the states or agencies thereof or other entities and with the United States for the purpose of promoting effective laws and the adoption of effective regulations for abatement and control of pollution of the waters of the Klamath River Basin, and from time to time to recommend to the governments reasonable minimum standards for the quality of such waters.

2. To disseminate to the public by any and all appropriate means information respecting pollution abatement and control in the waters of the Klamath River Basin and on the harmful and uneconomic results of such pollution.

C. Each state shall have the primary obligation to take appropriate action under its own laws to abate and control interstate pollution, which is defined as the deterioration of the quality of the waters of the Upper Klamath River Basin within the boundaries of such state which materially and adversely affects beneficial uses of waters of the Klamath River Basin in the other state. Upon complaint to the commission by the state water pollution control agency of one state that interstate pollution originating in the other state is not being prevented or abated, the procedure shall be as follows:

1. The commission shall make an investigation and hold a conference on the alleged interstate pollution with the water pollution control agencies of the two states, after which the commission shall recommend appropriate corrective action.

2. If appropriate corrective action is not taken within a reasonable time, the commission shall call a hearing, giving reasonable notice in writing thereof to the water pollution control agencies of the two states and to the person or persons which it is believed are causing the alleged interstate pollution. Such hearing shall be held in accordance with rules and regulations of the commission, which shall conform as nearly as practicable with the laws of the two states governing administrative hearings. At the conclusion of such hearing, the commission shall make a finding as to whether interstate pollution exists, and if so, shall issue to any person or persons which the commission finds are causing such interstate pollution an order or orders for correction thereof.

3. It shall be the duty of the person against whom any such order is issued to comply therewith. Any court of general jurisdiction of the state where such discharge is occurring or the United States District Court for the district where the discharge is occurring shall have jurisdiction, on petition of the commission for enforcement of such order, to compel action by mandamus, injunction, specific performance, or any other appropriate remedy, or on petition of the person against whom the order is issued to review any order. At the conclusion of such enforcement or review proceedings, the court may enter such decree or judgment affirming, reversing, modifying, or remanding such order as in its judgment is proper in the circumstances on the basis of the rules customarily applicable in proceedings for court enforcement or review of administrative actions.

D. The water pollution control agencies of the two states shall, from time to time, make available to the commission all data relating to the quality of the waters of the Upper Klamath River Basin which they possess as the result of studies, surveys and investigations thereof which they may have made.

ARTICLE VIII. MISCELLANEOUS

A. Subject to vested rights as of the effective date of this compact, there shall be no diversion of waters from the basin of Jenny Creek to the extent that such waters are required, as determined by the commission, for use on land within the basin of Jenny Creek.

B. Each state shall exercise whatever administrative, judicial, legislative or police powers it has that are required to provide any necessary re-regulation or other control over the flow of the Klamath River downstream from any hydroelectric power plant for protection of fish, human life or property from damage caused by fluctuations resulting from the operation of such plant.

ARTICLE IX. ADMINISTRATION

A. 1. There is hereby created a commission to administer this compact. The commission shall consist of three members. The representative of the State of California shall be the Department of Water Resources. The representative of the State of Oregon shall be the State Engineer of Oregon. The President is requested to appoint a federal representative who shall be designated and shall serve as provided by the laws of the United States.

2. The representative of each state shall be entitled to one vote in the com mission. The representative of the United States shall serve as chairman of the commission without vote. The compensation and expenses of each representative shall be fixed and paid by the government which he represents. Any action by the commission shall be effective only if it be agreed to by both voting members.

3. The commission shall meet to establish its formal organization within 60 days after the effective date of this compact, such meeting to be at the call of the Governors of the two states. The commission shall then adopt its initial set of rules and regulations governing the management of its internal affairs providing for, among other things, the calling and holding of meetings, the adoption of a seal, and the authority and duties of the chairman and executive director. The commission shall establish its office within the Upper Klamath River Basin.

4. The commission shall appoint an executive director, who shall also act as secretary, to serve at the pleasure of the commission and at such compensation, under such terms and conditions and performing such duties as it may fix. The executive director shall be the custodian of the records of the commission with authority to affix the commission's official seal, and to attest to and certify such records of copies thereof. The commission, without regard to the provisions of the civil service laws of either state, may appoint and discharge such consulting, clerical and other personnel as may be necessary for the performance of the commission's functions, may define their duties, and may fix and pay their compensation. The commission may require the executive director and any of its employees to post official bonds, and the cost thereof shall be paid by the commission.

5. All records, files and documents of the commission shall be open for public inspection at its office during established office hours.

6. No member, officer or employee of the commission shall be liable for injury or damage resulting from (a) action taken by such member, officer or employee in good faith and without malice under the apparent authority of this compact, even though such action is later judicially determined to be unauthorized, or (b) the negligent or wrongful act or omission of any other person, employed by the commission and serving under such officer, member or employee, unless such member, officer, or employee either failed to exercise due care in the selection, appointment or supervision of such other person, or failed to take all available action to suspend or discharge such other person after knowledge or notice that such other person was inefficient or incompetent to perform the work for which he was employed. Matters coming within the exception of this paragraph may be considered and acted upon by the commission in executive sessions under such rules and regulations as may be established therefor.

10. In the case of the failure of the two voting members of the commission to agree on any matter relating to the adminstration of this compact as provided in paragraph 2 of this subdivision A, the representative from each state shall appoint one person and the two appointed persons shall appoint a third person. The three appointees shall sit as an arbitration forum. The terms of appointment and the compensation of the members of the arbitration forum shall be fixed by the commission. Matters on which the two voting members of the commission have failed to agree shall be decided by a majority vote of the members of the arbitration forum. Each state obligates itself to abide by the decision of the arbitration forum, subject, however, to the right of each state to have the decision reviewed by a court of competent jurisdiction.

11. The commission shall have the right of access, through its authorized representatives, to all properties in the Klamath River Basin whenever necessary for the purpose of administration of this compact. The commission may obtain a court order to enforce its right of access.

B. 1. The commission shall submit to the governor or designated officer of each state a budget of its estimated expenditures for such period and at such times as may be required by the laws of that state for presentation to the legislature thereof. Each state pledges itself to appropriate and pay over to the commission one-half of the amount required to finance the commission's estimated expenditures as set forth in each of its budgets, and pledges further that concurrently with approval of this compact by its legislature the sum of not 'ess than $12,000 will be appropriated by it to be paid over to the commission at its first meeting for use in financing the commission's functions until the commission can prepare its first budget and receive its first appropriation thereunder from the states.

2. The commission shall keep accurate accounts of all receipts and disbursements, which shall be audited yearly by a certified public accountant, and the report of the audit shall be made a part of its annual report. The accounts of the commission shall be open for public inspection during established office hours.

3. The commission shall make and transmit to the legislature and governor of each state and to the President of the United States an annual report covering the finances and activities of the commission and embodying such plans, recommendations and findings as may have been adopted by the commission.

C. 1. The commission shall have the power to adopt, and to amend or repeal, such rules and regulations to effectuate the purposes of this compact as in its judgment may be appropriate.

2. Except as to matters involving exclusively the management of the internal affairs of the commission and its staff or involving emergency matters, prior to the adoption, amendment or repeal of any rule or regulation the commission shall hold a hearing at which any interested person shall have the opportunity to present his views on the proposed action in writing, with or without the opportunity to present the same orally. The commission shall give adequate advance notice in a reasonable manner of the time, place and subject of such hearings.

COMMUNICATIONS

The following communications were received and read, and ordered printed in the Journal:

STATE OF CALIFORNIA
DEPARTMENT OF CALIFORNIA HIGHWAY PATROL
SACRAMENTO, February 15, 1957

Hon. Harold J. Powers, President of the Senate
State Capitol, Sacramento, California

DEAR SIR: In accordance with the request contained in Senate Resolution No. 30, the Department of California Highway Patrol has explored the enforcement of Sections 525.1, 525.3, 531.1, and 618.5 of the California Vehicle Code.

Listed below in tabular form are the numbers of arrests made for violations of these sections during the calendar years 1954, 1955, and 1956:

	1956	*1955*	*1954*
Section 525.1 VC	6406	5657	4319
Section 525.3 VC	667	188	213
Section 531.1 VC	501	655	340
Section 618.5 VC	1044	127	

It is noted that during the past three years, there has been a gradual numerical increase in the enforcement activity of this department taken against violators of these sections with the exception of Section 531.1. Inasmuch as Section 531.1 does not apply on highways having two or more lanes of traffic in each direction, it is suggested that the reduction in enforcement against this violation might be the result of the increased miles of multilaned highways.

In addition to the enforcement activity referred to above, the California Highway Patrol during the years 1955 and 1956 prepared 12 state-wide news releases on Sections 525.1 and 525.3. During the same period, 6 news releases on Section 618.5 were prepared. Two state-wide television shorts on Section 525.1 and one television short on Section 618.5 were prepared. Ten radio spot broadcasts approximating 45 words each on Section 525.1 were released to radio stations.

The department prepared and distributed 100,000 safety pamphlets entitled "You May Be Next" on Section 525.1 and Section 514.

The department has just recently received and is in the process of distributing an additional 100,000 safety pamphlets on Section 525.1 and is in the process of preparing a safety pamphlet dealing with Section 618.5.

The department additionally has prepared an enforcement guide entitled "Driving in the Right Hand Lane." This guide deals with Sections 525.1, 525.3, and related anti-congested sections of the California Vehicle Code. This enforcement guide has been distributed to all personnel within the department, to courts, prosecutors, and other police agencies within the State dealing with traffic law enforcement. This enforcement guide provides judicial interpretation of the sections involved, elements constituting a violation, definitions, and methods of observation. A copy of this enforcement guide is attached. Additional copies are available upon request.

With the advent of the multilaned highway in California the previously accepted principle of requiring a vehicle at all times to drive to the right was modified by the Legislature in order that full use of the multilaned highway facilities might be attained. While it is recognized that these sections of the Vehicle Code, particular 525.1, present the field officer with enforcement problems, it is our opinion that through a combination of enforcement and education progress is being attained.

It is trusted that this is the information desired by Senate Resolution No. 30.

Sincerely,

B. R. CALDWELL, Commissioner

STATE OF CALIFORNIA

Hon. Harold J. Powers, President of California State Senate

A great deal of additional research has been carried on during the past two years, resulting in the possibility that the boundary line between California and Arizona as recommended in the 1955 report will be revised, a more feasible boundary line to be recommended at a future date.

Yours very truly,

When bills are reported from committee they shall be placed upon the General File, to be kept by the Secretary as follows: All bills when reported to the Senate by the committee shall be placed at the foot of the second reading Senate or Assembly file, in the order in which the reports are made, and after the second reading they shall be placed at the foot of the Senate or Assembly third reading file, in the order of reading. Unless otherwise ordered by the Senate the File shall be taken up in the following order: Senate second reading file, Assembly second reading file and Senate third reading file, Assembly third reading file. The bills upon third reading shall be considered in the order in which they appear upon the File, unless otherwise ordered by the Senate.

An inactive file shall be kept to which bills may be transferred at the request of the author, or on motion, and they shall be so transferred when they have been passed on third reading file without action three successive times. Bills may be carried on the inactive file by author and bill number without setting forth the title.

Bills may be transferred from the inactive file to the second reading file on motion, and after being read the second time such bills will take their place regularly on third reading file and be available for consideration and passage.

Notices of committee hearings shall be published in the File whenever presented by chairman of committees to the Secretary for that purpose. For such purpose bills will be identified by subject or by number.

Special Order

30. Any measure or subject may, by vote of a majority of those voting, be made a special order, and when the time fixed for its consideration arrives, the presiding officer shall lay it before the Senate.

Messages From the Governor or Assembly

31. Messages from the Governor or from the Assembly may be introduced at any stage of business except while a question is being put, while the ayes and noes are being called, or while a Senator is addressing the Senate.

Messages from the Governor or from the Assembly may be considered when indicated in the order of business or at any other time by unanimous consent or upon motion.

Engrossing Bills

32. All Senate bills, constitutional amendments and joint or concurrent resolutions shall be engrossed before final action is taken on them in the Senate. Engrossment shall consist of comparing the printed engrossed bill with the original bill introduced and any amendments adopted to ascertain that it is correct. When a bill is reported correctly engrossed it shall be substituted on the File for the original bill.

Enrolling Bills

33. All Senate bills shall be enrolled immediately following their final passage and receipt from the Assembly. An enrolled copy of every such bill, amendment or resolution shall be printed and examined to ascertain that it is a true and accurate copy of the measure as it was passed. It shall then be authenticated by the signatures of the President or President pro Tempore of the Senate and the Secretary or an Assistant Secretary of the Senate and by the corresponding officers of the Assembly and transmitted without delay to the Governor.

Debate

Statement of Motion

34. No motion shall be debated until the same be distinctly announced by the President; and it shall be reduced to writing if desired by the President or any Senator, and read by the Secretary, before the same shall be debated.

Regulations as to Speaking

35. 1. When a Senator desires to address the Senate, he shall rise in his place, address the President, and when recognized he shall proceed to speak through the public address system.

2. No Senator shall speak more than twice in any one debate on the same day, and at the same stage of the bill, without leave; and Senators who have once spoken shall not again be entitled to the floor (except for explanation) so long as any Senator who has not spoken desires to speak.

3. When two or more Senators arise at the same time to address the Senate, the presiding officer shall designate the Senator who is entitled to the floor.

4. No Senator shall be interrupted when speaking, and no question shall be asked him except through the presiding officer.

5. The author of a bill, motion, or resolution shall have the privilege of closing the debate.

Order in Debate

36. When a Senator shall be called to order he shall sit down until the President shall have determined whether he is in order or not; and every question of order shall be decided by the President, subject to an appeal to the Senate by any Senator. If a Senator be called to order for words spoken, the objectionable language shall immediately be taken down in writing by the Secretary of the Senate.

Right to Address the Senate

37. No person other than a Member of the Senate or the President thereof, shall address the Senate while it is in session but the Senate may resolve itself into a Committee of the Whole and while sitting as such committee may be addressed by persons other than members.

Questions and Motions

Amendments to Bills

38. When amendments to a bill are reported by a committee or offered from the floor, such amendments shall be submitted in quadruplicate.

Adoption of amendments to any bill in the Senate prior to third reading, other than by roll call, shall not preclude subsequent consideration in committee or on the third reading of the bill, of such amendments or any part thereof, by the Senate.

Motion to Lay on Table

39. When an amendment proposed to any pending measure shall be laid on the table, it shall not carry with it or prejudice such measure.

Division of Question

40. If a question in debate contains more than one distinct proposition, any Senator may have the same divided.

The Previous Question

41. The previous question shall be put in the following form: "Shall the question be now put?" It shall require a majority vote of the Senators present; and its effect shall be to put an end to all debate except that the author of the bill or the amendment shall have the right to close, and the question under discussion shall thereupon be immediately put to a vote.

Call of the Senate

42. Upon a motion being carried for a call of the Senate, the President shall immediately order the doors to be closed, and shall direct the Secretary to call the names of the absentees as disclosed by the last previous roll call. Thereupon, no members shall be permitted to leave the Senate Chamber except by written permission of the President pro Tempore or in his absence of the presiding officer. Those members who are found to be absent and for whom no excuse or insufficient excuses are made, may, by order of those present, be taken into custody, as they appear, or may be sent for and then taken into custody by the Sergeant-at-Arms wherever found, or by special messenger to be appointed for that purpose. In the absence of a quorum, a majority of the members present may order a roll call of the Senate and compel the attendance of absentees in the manner above provided.

A call of the Senate may be ordered after the roll has been called and prior to the announcement of the vote.

No recess can be taken during a call of the Senate. During a call, the Senate may consider and transact any matter or business that the Senators then present shall unanimously decide to consider, but no call of the Senate shall be had during a call of the Senate, except that during a call which was ordered for the purpose of procuring sufficient attendance for the conduct of business of the Senate in general and not for any other purpose, such call may be made to apply also to not more than one item of business by motion made and adopted by a majority vote of the members present after the roll has been called and prior to the announcement of the vote on such item of business. Under such circumstances, when the call of the Senate is dispensed with as to the item of business to which it is so applied it shall be deemed dispensed with as to the purpose for which it was originally made. When a call of the Senate is ordered, pending the announcement of the vote upon the completion of a roll call, the pending roll call shall become unfinished business, the consideration of which shall be continued until further proceedings under the call of the Senate are dispensed with, when it will forthwith become the order of business before the Senate.

Reconsideration

43. On the day on which a vote has been taken on any question a motion to reconsider the vote may be made by any member.

The motion may be considered on the day made or on the succeeding legislative day but may not be further postponed without the concurrence of 27 members.

No vote on a Senate bill may be reconsidered on or after the last day fixed for the consideration of Senate bills prior to adjournment and no vote may be reconsidered on the last day of the session.

When reconsideration of the vote by which any bill was passed has been demanded the Secretary shall not transmit it to the Assembly until the demand has been disposed of or the time for reconsideration has expired, but if the bill has already been transmitted to the Assembly the demand for reconsideration shall be preceded by a motion to request the Assembly to return the bill. This motion shall be put to a vote immediately without debate and if not adopted shall preclude a demand for reconsideration.

A demand to reconsider the vote on any debatable question opens the main question to debate and the vote on the reconsideration shall be on the merits of such main question.

Voting by Senate

43.5. No action whereby a bill has been passed or defeated may be rescinded without the concurrence of 27 members.

Voting on Roll Call

44. Whenever a roll call is required by the Constitution or Rules, or is ordered by the Senate or demanded by three members, every member within the Senate shall without debate answer "Aye" or "No" when his name is called.

The names of members shall be called alphabetically.

No Senator shall be permitted to vote or change his vote after the announcement of the vote by the presiding officer.

Excused From Voting

45. When a Senator declines or fails to vote on call of his name he may, after completion of the roll call, and before the announcement of the vote be required to assign his reasons therefor, and having assigned them, the presiding officer shall submit the question to the Senate: "Shall the Senator, for the reasons assigned by him, be excused from voting?" which question shall be decided without debate. Unless the Senator is excused from voting he shall be required to vote.

Voting by Presiding Senator

46. When the President pro Tempore or any other Member of the Senate is presiding over the Senate he shall vote on roll call the same as though he were not presiding.

Senate Resolution No. 76

Relative to requesting the Federal Public Housing Administration to withhold certain surplus lands from sale

WHEREAS, The California Legislature now has before it for consideration Senate Bill No. 41 which would establish a North Bay State College, a unit of the California State College System; and

WHEREAS, It has been proposed that this college be located on land declared surplus by the Public Housing Administration of the United States Government, designated as Parcels C and E of Carquinez Heights Housing Project No. Cal-4086, at Vallejo, California; and

WHEREAS, The Public Housing Administration has directed that these parcels be offered for sale on March 25, 1957; and

WHEREAS, The Mare Island Naval Ship Yard and the Mare Island Naval Base, installations of the United States Navy, have also indicated an interest in the establishment of a state college in this vicinity to provide technical training to employees and prospective employees of those installations; and

WHEREAS, The California Legislature also has before it several other bills relating to the establishment of state colleges in other areas of the State and in the interests of good planning and good government wishes to consider all these measures at the same time and to thoroughly explore the various factors involved, thus making it virtually impossible to make any decision on Senate Bill No. 41 prior to the prospective sale date of this land; now, therefore, be it

Resolved by the Senate of the State of California, That the Senate request the Federal Public Housing Administration to delay the date on which Parcels C and E of Carquinez Heights Housing Project No. Cal-4086, be offered for sale until June 12, 1957, the date of the adjournment of the California Legislature, in order to permit full consideration of this matter; and be it further

By Senator Short:

Senate Resolution No. 82

Relative to an investigation and report on the feasibility of an Eastside water service canal

WHEREAS, The valley and foothill areas lying east of the Sacramento-San Joaquin Rivers extending from the American River southward to the Stanislaus River are now deficient in water supply, both for irrigation and domestic purposes, and such deficiencies are becoming more acute each year; and

WHEREAS, The Department of Water Resources has submitted various reports concerning investigations of the possibility of water supplies for these areas from various sources; and

WHEREAS, The City of Stockton metropolitan area requires an immediate plan for the furnishing of a supplemental domestic and industrial water supply if this area is to continue its present growth pattern; and

WHEREAS, The Legislature has just added State Highway Route 238 to the State Highway System, which route is to extend from the vicinity of Woodland southward through the San Joaquin Valley to a point near Bakersfield and portions of the same may be along the easterly edge of the San Joaquin Delta to or near the City of Stockton; and

WHEREAS, A preliminary report entitled "A Water Plan for San Joaquin County and Nearby Areas Including the Delta" by Charles M. Weber was submitted under the provisions of H. R. 200, 1951 Session, as extended, to the Legislature on May 15, 1956, through the Assembly Committee on Conservation, Planning, and Public Works, indicating the feasibility of the location of a major water service canal in conjunction with a freeway extending along the easterly side of the delta to the confluence of the Stanislaus and San Joaquin Rivers; and

WHEREAS, Such a route might make it possible to furnish surplus waters to such deficient areas from one or more of several sources such as the American, Sacramento, Cosumnes, Calaveras, and Mokelumne Rivers; and

WHEREAS, The combination routing of such a state highway and water service canal may offer great savings in rights of way and construction costs as well as providing an economical means of providing urgently needed water to the areas of deficiency; now, therefore, be it

Resolved by the Senate of the State of California, That the Department of Water Resources is directed to make a study and report on the feasibility of such a combination of water service canal and state highway to supply the water needs of the City of Stockton and the lands adjacent to and east of the delta of the Sacramento and San Joaquin Rivers; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a copy of this resolution to the Director of Water Resources.

Senate Resolution No. 84

Relative to a Senate Committee on State and Local Taxation to make inquiry into every phase of taxation, creating the committee and defining its powers and duties

WHEREAS, The economy of the State of California has during the recent years gone through a revolutionary change, so that industry has assumed an increased importance in relation to agriculture, mining, and commerce; and

WHEREAS, This change has resulted in bringing into the State industries and properties of large value which have not previously been considered in our tax structure, and has created new governmental problems; and

WHEREAS, The increased population incident to this change in our economy has also created new governmental problems and made new demands upon both local and state governments; and

WHEREAS, The unprecedented growth of motor transportation and the change-over to the use of diesel fuel in motor transportation during the war period, together with the added population of our State and the concentration in industrial centers, has materially changed the requirements for the support of highways, streets, and bridges; and

WHEREAS, It appears that there may be large sums in the way of federal subsidies granted both to the state and local governments which will directly affect the revenue structure and will require careful examination to coordinate the disposition of these subsidies equitably into the entire revenue program of both state and local governments; and

WHEREAS, From the beginning of the State's history, the ad valorem tax has been and still is the fiscal mainstay of local government and has not been adjusted to meet the new conditions; and

WHEREAS, The administration of taxation by the State and by the local governments has not been modernized, in fact has not been materially changed to bring it into line with present or prospective needs; and

WHEREAS, The relative burden of our several taxes on the different classes of taxpayers and different classes of property has not been fully determined; and

WHEREAS, There are new classes of property and rights that have grown up in the State that are not subject to taxation; and

WHEREAS, The acquisition, holding and exchange of land in this State by the United States of America has many aspects and involves varied and varying relationships, including the bearing and effect thereof upon taxes levied or leviable by the State and by local governmental units within the State; and

WHEREAS, Neither the state nor local governments have available to their legislative bodies information concerning all the varied phases of this problem adequate to legislative consideration and action in the endeavor to find and effect a solution; and

WHEREAS, For many years the burdens of government have been increasing both for the state and local governments, including many fixed charges not controllable by administrative bodies but brought about in answer to the demand of the people expressed in continuing legislation or in constitutional requirements, it is imperative that an appraisal be made so that revenues may be made adequate to meet the demands of government, both local and state, and the burdens of taxation may be equitably distributed upon and among the several classes of property and of taxpayers; now, therefore, be it

Resolved by the Senate of the State of California, As follows:

1. The Senate Committee on State and Local Taxation is hereby created, authorized and directed to ascertain, study, and analyze all facts relating to or in any way bearing upon any of the subjects mentioned in the recitals of this resolution, particularly including but not limited to each phase of each and every tax (as herein defined) imposed in this State by any governmental agency (state, local, or federal); the incidence and burden of each such tax upon property, business and the taxpayer and the ability of the latter to pay, also the productivity of each such tax in relation to its cost of administration and in relation to the purposes for which imposed, each of which factors of each tax the committee shall consider, weigh, appraise and evaluate with each such factor of every other tax; bearing and effect upon state and local taxes and expenditures of the acquisition, holding and exchange of lands in this State by the United States; the present and prospective revenue needs of each agency of government and the most equitable means

of meeting each such need, taking into consideration all of the varied forms of tax now in use or that might be devised and put into use, and all existing sources of revenue and new sources of revenue that might be developed; administrative methods and procedures which now obtain in respect to each such tax and how they might be improved; present and prospective governmental expenditures of and the acquisition, management, use and disposition of properties by each state or local governmental agency and the bearing thereof upon the relation to each and every form of tax now imposed or that might be devised and imposed; and the operation, effect, administration, enforcement, and needed revision of any and all laws in any way bearing upon or relating to the subjects of this resolution; and to report thereon to the Senate, including in the reports its recommendations for appropriate legislation.

"10163. The adjusted premiums for any policy shall be calculated on an annual basis and shall be such uniform percentage of the respective premiums specified in the policy for each policy year, excluding extra premiums on a substandard policy, that the present value, at the date of issue of the policy, of all such adjusted premiums shall be equal to the sum of (i) the then present value of the future guaranteed benefits provided for by the policy; (ii) two percent (2%) of the amount of insurance, if the insurance be uniform in amount, or of the equivalent uniform amount, as hereinafter defined, if the amount of insurance varies with duration of the policy; (iii) forty percent (40%) of the adjusted premium for the first policy year; (iv) twenty-five percent (25%) of either the adjusted premium for the first policy year or the adjusted premium for a whole life policy of the same uniform or equivalent uniform amount with uniform premiums for the whole of life issued at the same age for the same amount of insurance, whichever is less. In applying the percentages specified in (iii) and (iv) above, no adjusted premium

shall be deemed to exceed four percent (4%) of the amount of insurance or level amount equivalent thereto.

In the case of a policy providing an amount of insurance varying with duration of the policy, the equivalent level amount thereof for the purpose of this section shall be deemed to be the level amount of insurance provided by an otherwise similar policy, containing the same endowment benefit or benefits, if any, issued at the same age and for the same term, the amount of which does not vary with duration and the benefits under which have the same present value at the inception of the insurance as the benefits under the policy.

All adjusted premiums and present values referred to in this article shall *for all policies of ordinary insurance* be calculated on the basis of the Commissioners 1941 Standard Ordinary Mortality Table [for ordinary insurance;] *provided, however, that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated, at the option of the company, according to an age not more than three years younger than the actual age of the insured.* [and the 1941 Standard Industrial Mortality Table for industrial insurance and the rate of interest, not exceeding three and one-half percent (3½%) per annum, specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits; except that] *Such calculations for all policies of industrial insurance shall be made on the basis of the 1941 Standard Industrial Mortality Table. All calculations shall be made on the basis of the rate of interest, not exceeding three and one-half percent (3½%) per annum, specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits. However,* in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than one hundred thirty percent (130%) of the rates of mortality according to such applicable table; and [except that] for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company and approved by the commissioner.

SEC. 2. Section 10489.2 of the Insurance Code is amended to read:

10489.2. The minimum standard for the valuation of all such policies and contracts shall be the commissioners reserve valuation method defined in Section 10489.3, three and one-half percent (3½%) interest, and the following tables:

(a) For all ordinary policies of life insurance issued on the standard basis, excluding any disability and accidental death benefits in such policies—the Commissioners 1941 Standard Ordinary Mortality Table *; provided, however, that for any category of such policies issued on female risks modified net premiums and present values, referred to in Section 10489.3, may be calculated, at the option of the company, according to an age not more than three years younger than the actual age of the insured.*

(b) For all industrial life insurance policies issued on the standard basis, excluding any disability and accidental death benefits in such policies—the 1941 Standard Industrial Mortality Table.

(c) For annuity and pure endowment contracts, excluding any disability and accidental death benefits in such policies—the 1937 Standard Annuity Mortality Table.

(d) For total and permanent disability benefits in or supplementary to ordinary policies or contracts—Class (3) Disability Table (1926) which for active lives shall be combined with a mortality table permitted for calculating the reserves for life insurance policies.

(e) For accidental death benefits in or supplementary to policies—the Inter-Company Double Indemnity Mortality Table combined with a mortality table permitted for calculating the reserves for life insurance policies.

(f) For group life insurance, life insurance issued on the substandard basis and other special benefits—such tables as may be approved by the commissioner."

MOTION TO PRINT OPINION OF ATTORNEY GENERAL

Senator Collier moved that the following opinion of the Attorney General be printed in the Journal.

Motion carried.

OPINION OF ATTORNEY GENERAL

STATE OF CALIFORNIA, DEPARTMENT OF JUSTICE
OFFICE OF THE ATTORNEY GENERAL
SAN FRANCISCO, March 19, 1957

Hon. Randolph Collier
State Senator, Second Senatorial District
Sacramento 14, California

DEAR SENATOR COLLIER: I enclose herewith Opinion 57/17 issued to you in accordance with your request.

Very truly yours,

EDMUND G. BROWN
Attorney General
By HENRY A. DIETZ
Assistant Attorney General

OPINION OF EDMUND G. BROWN, ATTORNEY GENERAL

Edward P. Hollingshead, Deputy Attorney General

No. 57/17—March 19, 1957

HON. RANDOLPH COLLIER, Senator from the Second Senatorial District, has requested the opinion of this office on the following questions with reference to that portion of Section 14, Article XIII, of the California Constitution, which provides: "all property, other than franchises, owned or used by * * * (5) companies engaged in the transmission or sale of gas or electricity, shall be assessed annually by the State Board of Equalization, at the actual value of such property."

1. "In your opinion does this language require the State Board of Equalization to assess all of the property owned or used by companies engaged in the production and sale of petroleum and petroleum products if such companies are also engaged in the transmission or sale of gas?"

2. "Secondly, in your opinion does the Constitutional language require the State Board of Equalization to assess all of the property owned or used by a company selling natural gas when such company is the wholly-owned subsidiary of a gas and electric utility and when all sales are made to the parent company?"

Our conclusions may be summarized as follows:

1. Section 14, Article XIII, of the California Constitution requires the State Board of Equalization to assess all property, other than franchises, owned or used by those companies engaged in the transmission or sale of gas and electricity which are by law regarded as public utilities, but does not require it to assess the property of companies engaged in the production and sale of petroleum or petroleum products

which also engage in the transmission or sale of gas, unless such transmission or sale of gas causes them to be regarded as public utilities.

2. In accordance with our answer to the first question, a wholly owned subsidiary which sells gas to its parent gas and electricity utility need not be assessed by the State Board of Equalization unless the subsidiary is itself a public utility.

Analysis

The portion of Section 14 of Article XIII of the Constitution relating to assessment by the State Board of Equalization, sometimes hereinafter referred to as the Board, provides as follows:

> "All pipe lines, flumes, canals, ditches and aqueducts not entirely within the limits of any one county, and all property, other than franchises, owned or used by (1) railroad companies including street railways, herein defined to include interurban electric railways, whether operating in one or more counties, (2) sleeping car, dining car, drawing-room car, and palace car companies, refrigerator, oil, stock, fruit and other car-loaning and other car companies operating upon the railroads in the State, (3) companies doing express business on any railroad, steamboat, vessel or stage line in this State, (4) telegraph and telephone companies, (5) companies engaged in the transmission or sale of gas or electricity, shall be assessed annually by the State Board of Equalization, at the actual value of such property."

Although Section 14 on its face would appear to require the assessment by the State Board of Equalization of all property owned or used by *all* companies engaged in the transmission or sale of gas or electricity regardless of whether they are public utilities, the history of the constitutional provision and the contemporaneous and long-continued administrative construction afforded it indicate that it should not be so construed.

Upon investigation, we have found that the State Board of Equalization has consistently over the years assessed the property only of those "companies engaged in the transmission of gas or electricity" under Certificates of Public Convenience and Necessity issued by the California Public Utilities Commission (see Section 216 and Sections 1001, et seq. of the Public Utilities Code). It has not attempted to assess the property of a company not so certificated, as it has construed the constitutional language in question as inapplicable to companies not public utilities. The reason for this interpretation stems from the fact that when the Board first began the assessment of property for purposes of *ad valorem* taxation under Section 14 after its amendment on June 27, 1933, substituting this form of taxation for the system of "in lieu" gross receipts taxes theretofore imposed, it was guided by the fact that the language respecting "companies engaged in the transmission or sale of gas or electricity" remained unchanged. This language had been construed by the Supreme Court of California in *Story* v. *Richardson* (1921), 186 Cal. 162, to be applicable only to public utilities. Hence, the Board followed the same administrative practice after the 1933 amendment to Section 14 as it had previously, in conformity with the ruling of the Supreme Court. (See Biennial Report of the State Board of Equalization, 1935-1936, pages 5-6.)

On the other hand, with respect to the assessment of "[a]ll pipe lines, flumes, canals, ditches and aqueducts not entirely within the limits of any one county", the Board has made its assessments under Section 14 without regard to the nature of the taxpayer. Such assessments do not extend to all of the property of the owner but are confined to the inter-county pipe line, flume, canal, ditch or aqueduct. This administrative construction was expressly approved by the Supreme Court of California in *General Pipe Line Co.* v. *State Bd. of Equalization* (1936), 5 Cal. 2d 253.

It is, of course, a rule of long standing that a contemporaneous construction of a constitutional provision by State authorities charged with the duty of administering the law, while not controlling, is entitled to great respect (see *Cudahy Packing Co.* v. *Johnson* (1939), 12 Cal. 2d 583, applying this rule to Section 14 as it read prior to the 1933 amendment; *Carter* v. *Com. on Qualifications, Etc.* (1939), 14 Cal. 2d 179).

The history of Section 14* reveals that immediately prior to its addition to Article XIII of the Constitution on November 8, 1910, general property taxes were imposed by the State, the counties and the cities. This general property tax was abandoned as a source of State revenue upon the addition of Section 14 to Article XIII, which provided, *inter alia*, for special "in lieu" gross receipts taxes for State purposes on the property used exclusively in the operation of designated public utilities, including the property of "companies engaged in the transmission or sale of gas or electricity". Local governments, on the other hand, were to derive their revenues from the *ad valorem* taxation of common property.

In *Story* v. *Richardson* (1921), 186 Cal. 162, *supra*, the Supreme Court of California construed Section 14 as it then read, rejecting its application to the owner of a building who furnished occupants of another building with surplus electricity generated in the basement of his building in addition to the electricity and steam furnished primarily to his own tenants. After reciting the pertinent portions of Section 14 and referring to the history of events leading up to its adoption, the Court, at page 166, stated: "Accordingly, a uniform scheme was proposed for the taxation of certain enumerated public utilities, including electrical companies, and that system was that the tax should equal a certain percentage of gross receipts; special methods were prescribed for the taxation of banks and insurance companies. Throughout the report electrical companies were classified and discussed as one group of 'public utilities' to be taxed upon gross receipts. In the printed arguments submitted to the voters in 1910, at the time the constitutional amendment was voted upon, the 'gross receipts' method of taxation was advocated solely for public utilities. *It is clear both from the report of the commission proposing the amendment and the arguments advanced to those voting upon the adoption of the amendment, as well as from the nature of the amendment, that the provision for taxation in proportion to gross receipts is applicable only to public utilities.*" (Emphasis added.)

* For a history of the taxation of public utilities, see the reports of the Senate Interim Committee on State and Local Taxation, Part Three (1951), entitled "State and Local Taxes in California: A Comparative Analysis," pp. 264-273, and Part Four (1953), entitled "A Legal History of Property Taxation in California: Division III, Assessment and Equalization of Property," pp. 11-12, 112-148.

The construction given Section 14 in the *Story* case was subsequently approved and reaffirmed in *Cudahy Packing Co.* v. *Johnson, supra.*

As heretofore noted, Section 14 of Article XIII was amended on June 27, 1933, and, insofar as it relates to State assessment of public utility property, has since remained unchanged. In the argument to the voters in favor of the adoption of Senate Constitutional Amendment 30, which included the amendment in question and which was adopted as a part of the so-called "Riley-Stewart Tax Plan" (Calif. Stats. 1933, Res. Ch. 63), it was stated that:

> "Senate Constitutional Amendment Number 30 is a well considered revision of California's revenue system that is submitted to the voters of this State for the purpose of equalizing taxation and affording relief to taxpayers. Effective January 1, 1935, this plan provides for the repeal of the so-called Amendment No. 1 adopted in 1910. This will return $1,900,000,000 actual value of *public utility property* to the tax rolls for the support of local government." (Emphasis added.)

In *General Pipe Line Co.* v. *State Bd. of Equalization* (1936), 5 Cal. 2d 253, at pages 255-256, the Supreme Court construed Section 14, as amended in 1933, as follows: "When we read the language of Section 14 of Article XIII, already quoted, we notice that the words 'All pipe lines, flumes, canals, ditches and aqueducts not entirely within the limits of any one county and' might have been omitted from the amendment had it been the intent to include within its scope only the property of public utilities. In other words, there are two classes of property enumerated in the section—first, pipe lines, flumes, etc., *and, second, all property, other than franchises, of public utilities.* We entertain no doubt that the clearly expressed intent of the amendment was to make the Board of Equalization, for the sake of uniformity and in order to avoid the temptation which might exist in one of the counties to assess at more than its just proportion, the assessor of the property described, whether the lines or ditches be extensive, as in the case of a water department of a municipality, which in legal parlance is more properly classified as a municipal utility than as a public utility, subject to the jurisdiction of the railroad commission [citing cases], or comparatively small as may be the case otherwise. One of the first rules of construction is that where the language is plain and unambiguous there exists no room for construction. We think such is the present case." (Emphasis added.)

Moreover, in *Southern Cal. Tel. Co.* v. *Los Angeles* (1941), 45 Cal. App. 2d 111, at page 114, the District Court of Appeal, Third Appellate District, stated:

> "From 1911 to 1934, inclusive, the property of public utilities was taxed in California by the imposition of taxes proportionate to gross receipts. On June 27, 1933, a constitutional amendment was adopted, whereby the aforesaid 'gross receipts' system of taxation was superseded by the system now embraced in the Constitution, article XIII, Sections 14 and 16 and the statutes implementing these constitutional provisions. This new system went into effect in 1935. *The chief features of the new system of taxing public*

utilities in California are as follows: The State Board of Equalization is required to assess, annually, all property, other than franchises, of such enterprises at its actual value. The owners of public utility property are offered opportunity to appear and apply to the board for correction of assessments made by it. Upon completion of the assessments, the board is required to transmit to the respective local taxing jurisdictions an assessment roll showing the assessments against public utility property located therein. The property so assessed is then subject to taxation locally at the rates fixed for taxation of property in the respective taxing jurisdictions." (Emphasis added.)

From the foregoing, we are of the view that the practice of the State Board of Equalization in assessing only the property of certificated public utilities, save in the case of inter-county pipe lines, flumes, canals, ditches and aqueducts, is not unreasonable in the case of companies engaged in the transmission or sale of gas or electricity. While there is some language in *People* v. *Keith Railway Equipment Co.* (1945), 70 Cal. App. 2d 339, at page 349, which calls for the contrary result in the case of private car companies, we believe that the case is factually distinguishable and does not provide a rule to be applied to the companies in question. The *Keith Railway* case involved the application of the Private Car Tax Act (Calif. Stats. 1937, Ch. 283, p. 621; now Sections 11201-11752 of the Revenue and Taxation Code) to an owner of private railroad cars furnished to shippers for transportation of property on railroads in California. The tax there involved was a state tax levied on privately owned railroad cars not assessed and taxed as a part of the property of a railroad company operating in this State. There was not involved the question of state or local assessment for purposes of local *ad valorem* property taxation. The court, accordingly, held that Section 14, Article XIII, of the Constitution did not invalidate the private car tax but, on the contrary, supported it by virtue of the provisions therein which provide that "the Legislature shall have the power to provide for the assessment, levy and collection of taxes upon all forms of tangible personal property" and "may classify any and all kinds of personal property for the purposes of assessment and taxation in a manner and at a rate or rates in proportion to value different from any other property in the State subject to taxation" (*People* v. *Keith Railway Equipment Co., supra,* at p. 350).

It should of course, be understood that the fact that property is not assessed by the State Board of Equalization does not mean that it will escape taxation. Any property, real or personal, not assessed by the Board and not exempt from taxation will be assessed by the local assessor and taxed on the local roll under Section 1 of Article XIII of the Constitution.

We conclude, therefore, that Section 14 of Article XIII of the California Constitution does not require the State Board of Equalization to assess all of the property owned or used by the companies in question, unless the respective companies are themselves public utilities.

Introduction of Bills at Special Sessions

24. Whenever at any special session a bill is received at the desk, under the order of Introduction of Bills, it shall be referred to the Committee on Rules which shall decide whether or not such bill can properly be considered at the session. If in the judgment of the Committee on Rules such bill can be considered it shall report it back and designate the committee to which it shall be assigned. Thereafter it shall be assigned a number by the Secretary, be read first time, and referred to the committee recommended by the Committee on Rules unless otherwise referred on motion without debate.

Senate Resolutions

25. All Senate resolutions upon being presented shall be given a number by the Secretary. Such resolutions shall be printed in the Journal and indexed in the History and Journal.

Bills in Committee

Committee Hearings

26. During the constitutional recess or as soon thereafter as practicable the chairman of each committee shall prepare a schedule of hearings concerning bills referred to the committee. The schedule shall be arranged according to subjects insofar as may be convenient.

The schedules and any changes therein shall be delivered to the Senate as soon as convenient in order that due notice may be given to persons interested in the legislation.

No bill shall be set for hearing, nor shall any notice thereof be published, by a Senate committee until the bill has been referred to the committee by the Committee on Rules of the Senate.

Substitute Committee Bills

27. A committee may amend into one bill related provisions germane to the subject and embraced within the title; and with the consent of the author the committee may constitute such bill a committee bill by striking out of the heading of the bill the line "introduced by" and the name of the author and substituting therefor "Substitute committee bill of the Committee on" and the name of the committee.

Withdrawal of Bills for Amendment

27.5. Upon the request of the author of a bill on which no action has been taken other than the original reference to committee, the chairman of the committee to which the bill has been originally referred may, by his individual action taken independently of any committee meeting, cause the bill to be reported to the Senate with the recommendation that amendments submitted by the author be adopted and the bill be reprinted as amended and re-referred to the committee.

Recalling a Bill From Committee

28. The Senate may at any time by 21 votes recall a bill from committee.

Re-reference to Finance Committee

28.5. It shall be the duty of each standing committee to which a bill is referred to determine (1) whether the bill appropriates money, or (2) whether the bill would result in substantial expenditures of state money by (a) imposing new responsibilities upon the State or (b) new

or additional duties upon a state agency or (c) liberalization of any state program, function or responsibility. If the standing committee so determines, the standing committee shall report the bill with the recommendation that the bill be referred to the Finance Committee, in addition to such other recommendation as the standing committee deems desirable.

Any member of the Senate may move to refer a bill to the Finance Committee, and the failure or refusal of the standing committee to recommend that the bill be referred to the Finance Committee shall not preclude such a motion by any member of the Senate.

Consideration of Bills

Order of Making Files

29. When bills are reported from committee they shall be placed upon the General File, to be kept by the Secretary as follows: All bills when reported to the Senate by the committee shall be placed at the foot of the second reading Senate or Assembly file, in the order in which the reports are made, and after the second reading they shall be placed at the foot of the Senate or Assembly third reading file, in the order of reading. Unless otherwise ordered by the Senate the File shall be taken up in the following order: Senate second reading file, Assembly second reading file and Senate third reading file, Assembly third reading file. The bills upon third reading shall be considered in the order in which they appear upon the File, unless otherwise ordered by the Senate.

An inactive file shall be kept to which bills may be transferred at the request of the author, or on motion, and they shall be so transferred when they have been passed on third reading file without action three successive times. Bills may be carried on the inactive file by author and bill number without setting forth the title.

Bills may be transferred from the inactive file to the second reading file on motion, and after being read the second time such bills will take their place regularly on third reading file and be available for consideration and passage.

Notices of committee hearings shall be published in the File whenever presented by chairman of committees to the Secretary for that purpose. For such purpose bills will be identified by subject or by number.

Special Order

30. Any measure or subject may, by vote of a majority of those voting, be made a special order, and when the time fixed for its consideration arrives, the presiding officer shall lay it before the Senate.

Messages From the Governor or Assembly

31. Messages from the Governor or from the Assembly may be introduced at any stage of business except while a question is being put, while the ayes and noes are being called, or while a Senator is addressing the Senate.

Messages from the Governor or from the Assembly may be considered when indicated in the order of business or at any other time by unanimous consent or upon motion.

Engrossing Bills

32. All Senate bills, constitutional amendments and joint or concurrent resolutions shall be engrossed before final action is taken on them in the Senate. Engrossment shall consist of comparing the printed

engrossed bill with the original bill introduced and any amendments adopted to ascertain that it is correct. When a bill is reported correctly engrossed it shall be substituted on the File for the original bill.

Enrolling Bills

33. All Senate bills shall be enrolled immediately following their final passage and receipt from the Assembly. An enrolled copy of every such bill, amendment or resolution shall be printed and examined to ascertain that it is a true and accurate copy of the measure as it was passed. It shall then be authenticated by the signatures of the President or President pro Tempore of the Senate and the Secretary or an Assistant Secretary of the Senate and by the corresponding officers of the Assembly and transmitted without delay to the Governor.

Debate

Statement of Motion

34. No motion shall be debated until the same be distinctly announced by the President; and it shall be reduced to writing if desired by the President or any Senator, and read by the Secretary, before the same shall be debated.

Regulations as to Speaking

35. 1. When a Senator desires to address the Senate, he shall rise in his place, address the President, and when recognized he shall proceed to speak through the public address system.

2. No Senator shall speak more than twice in any one debate on the same day, and at the same stage of the bill, without leave; and Senators who have once spoken shall not again be entitled to the floor (except for explanation) so long as any Senator who has not spoken desires to speak.

3. When two or more Senators arise at the same time to address the Senate, the presiding officer shall designate the Senator who is entitled to the floor.

4. No Senator shall be interrupted when speaking, and no question shall be asked him except through the presiding officer.

5. The author of a bill, motion, or resolution shall have the privilege of closing the debate.

Order of Debate

36. When a Senator shall be called to order he shall sit down until the President shall have determined whether he is in order or not; and every question of order shall be decided by the President, subject to an appeal to the Senate by any Senator. If a Senator be called to order for words spoken, the objectionable language shall immediately be taken down in writing by the Secretary of the Senate.

Right to Address the Senate

37. No person other than a Member of the Senate or the President thereof, shall address the Senate while it is in session but the Senate may resolve itself into a Committee of the Whole and while sitting as such committee may be addressed by persons other than members.

Questions and Motions

Amendments to Bills

38. When amendments to a bill are reported by a committee or offered from the floor, such amendments shall be submitted in quadruplicate.

Adoption of amendments to any bill in the Senate prior to third reading, other than by roll call, shall not preclude subsequent consideration in committee or on the third reading of the bill, of such amendments or any part thereof, by the Senate.

Motion to Lay on the Table

39. When an amendment proposed to any pending measure shall be laid on the table, it shall not carry with it or prejudice such measure.

Division of a Question

40. If a question in debate contains more than one distinct proposition, any Senator may have the same divided.

The Previous Question

41. The previous question shall be put in the following form: "Shall the question be now put?" It shall require a majority vote of the Senators present; and its effect shall be to put an end to all debate except that the author of the bill or the amendment shall have the right to close, and the question under discussion shall thereupon be immediately put to a vote.

Call of the Senate

42. Upon a motion being carried for a call of the Senate, the President shall immediately order the doors to be closed, and shall direct the Secretary to call the names of the absentees as disclosed by the last previous roll call. Thereupon, no members shall be permitted to leave the Senate Chamber except by written permission of the President pro Tempore or in his absence of the presiding officer. Those members who are found to be absent and for whom no excuse or insufficient excuses are made, may, by order of those present, be taken into custody, as they appear, or may be sent for and then taken into custody by the Sergeant-at-Arms wherever found, or by special messenger to be appointed for that purpose. In the absence of a quorum, a majority of the members present may order a roll call of the Senate and compel the attendance of absentees in the manner above provided.

A call of the Senate may be ordered after the roll has been called and prior to the announcement of the vote.

No recess can be taken during a call of the Senate. During a call, the Senate may consider and transact any matter or business that the Senators then present shall unanimously decide to consider, but no call of the Senate shall be had during a call of the Senate, except that during a call which was ordered for the purpose of procuring sufficient attendance for the conduct of business of the Senate in general and not for any other purpose, such call may be made to apply also to not more than one item of business by motion made and adopted by a majority vote of the members present after the roll has been called and prior to the announcement of the vote on such item of business. Under such circumstances, when the call of the Senate is dispensed with as to the item of business to which it is so applied it shall be deemed dispensed with as to the purpose for

which it was originally made. When a call of the Senate is ordered, pending the announcement of the vote upon the completion of a roll call, the pending roll call shall become unfinished business, the consideration of which shall be continued until further proceedings under the call of the Senate are dispensed with, when it will forthwith become the order of business before the Senate.

Reconsideration

43. On the day on which a vote has been taken on any question a motion to reconsider the vote may be made by any member.

The motion may be considered on the day made or on the succeeding legislative day but may not be further postponed without the concurrence of 27 members.

No vote on a Senate bill may be reconsidered on or after the last day fixed for the consideration of Senate bills prior to adjournment and no vote may be reconsidered on the last day of the session.

When reconsideration of the vote by which any bill was passed has been demanded the Secretary shall not transmit it to the Assembly until the demand has been disposed of or the time for reconsideration has expired, but if the bill has already been transmitted to the Assembly the demand for reconsideration shall be preceded by a motion to request the Assembly to return the bill. This motion shall be put to a vote immediately without debate and if not adopted shall preclude a demand for reconsideration.

A demand to reconsider the vote on any debatable question opens the main question to debate and the vote on the reconsideration shall be on the merits of such main question.

Voting by Senate

43.5. No action whereby a bill has been passed or defeated may be rescinded without the concurrence of 27 members.

Voting on Roll Call

44. Whenever a roll call is required by the Constitution or Rules, or is ordered by the Senate or demanded by three members, every member within the Senate shall without debate answer "Aye" or "No" when his name is called.

The names of members shall be called alphabetically.

No Senator shall be permitted to vote or change his vote after the announcement of the vote by the presiding officer.

Excused From Voting

45. When a Senator declines or fails to vote on call of his name he may, after completion of the roll call, and before the announcement of the vote be required to assign his reasons therefor, and having assigned them, the presiding officer shall submit the question to the Senate: "Shall the Senator, for the reasons assigned by him, be excused from voting?" which question shall be decided without debate. Unless the Senator is excused from voting he shall be required to vote.

Voting by Presiding Senator

46. When the President pro Tempore or any other Member of the Senate is presiding over the Senate he shall vote on roll call the same as though he were not presiding.

47. Unless otherwise required by the Constitution, the Joint Rules of the Senate and Assembly or by these Rules, any action which can be taken by the Senate requires only a majority vote of the Senate, a quorum being present.

Such determination shall be made in accordance with the standards and limits established by the State Department of Social Welfare.

The allowance to the recipient shall be solely for personal and incidental expenses and shall be at least ten dollars ($10) but not to exceed fifteen dollars ($15) per month.

10375. No person shall inter in any cemetery any human body unless (a) there has been obtained and filed with the local registrar of the city or county where death occurred, a death certificate, and (b) there has been obtained from the local registrar a permit for disposition.

10376. 10377. The body of any person whose death occurs in this State, or whose body is found in the State, or which is brought in from outside the State, shall not be temporarily held pending disposition more than five days after death, unless a permit for disposition is issued by the local registrar of the registration district in which the death occurred or the body was found.

10381. This chapter does not prevent a funeral director from removing a body from the registration district where the death occurred or the body was found to another registration district in the same or another county in a funeral director's conveyance for the purpose of preparing the body for interment or shipment.

10382. A permit issued in one county or city is valid and sufficient in any county it specifies as the place of interment and shall be issued in duplicate. Further permit for interment shall not be required, but any local interment fees required by law or ordinance shall be paid.

10383. If any cemetery is located partly in one registration district and partly in another, only one permit shall be required for interment and a permit authorizing interment in such cemetery shall entitle interment to be made within or without the district to which such permit is directed. Such permit shall be returned to the registration district in which the interment is made irrespective of the district to which it is directed. The local registrar of the district in which such interment is made shall forthwith file such permit on presentation without charge.

COMMUNICATIONS

STATE OF CALIFORNIA
DEPARTMENT OF WATER RESOURCES
SACRAMENTO, March 21, 1957

Hon. J. A. Beek, Secretary of the Senate
State Capitol, Sacramento, California

Subject: Report on Salinity Control Barrier Studies

DEAR MR. BEEK: In accordance with provisions of the Abshire-Kelly Salinity Control Barrier Act of 1955, the Department of Water Resources and predecessor agencies have been engaged in an investigation of the feasibility of plans for the control of salinity in the Sacramento-San Joaquin Delta and for other allied purposes. This legislation requires that a report on the status of the investigation be made to the Legislature on March 30, 1957.

The required report has been prepared and is under review within this department, the majority of the material having already been furnished the State Printer for publication. However, the report should be presented to the State Water Board for its review and recommendation prior to release to the Legislature and to the public. It will be presented to the board at its next scheduled meeting on April 5, 1957, and it is anticipated that the board will recommend release of the report at that time. Under established procedure, a joint public hearing on the subject matter of the report will be held by the department and the State Water Board at a later date.

For the foregoing reasons, it is anticipated that there will be a short delay in presenting the report on the status of the Salinity Control Barrier Investigation to the Legislature. The acquiescence of the Legislature in the procedure outlined is respectfully requested.

Very truly yours,

HARVEY O. BANKS, Director

Senate Bill No. 622—An act authorizing the State Public Works Board to construct a state office building, and making an appropriation.

Bill read third time.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 622:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 18, 1957

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Senate Bill No. 622, "An act authorizing the State Public Works Board to construct a state office building, and making an appropriation,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill authorizes the construction of another state office building in the City of Sacramento at a cost not to exceed $6,125,000. The building is to be financed by the issuance of trust certificates under agreement with the State Employees' Retirement System pursuant to the State Building Construction Act of 1955. This state agency is given a preferred right to office space in the building. In order to provide suitable state-owned quarters for this and other state agencies now located in inadequate leased space, this bill should be acted upon as speedily as possible.

I therefore recommend consideration of Senate Bill No. 622 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

The roll was called, and the bill passed by the following vote:

Senate Bill No. 623—An act making an appropriation for acquisition of real property, declaring the urgency thereof, to take effect immediately.

Bill read third time.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 623:

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 6, 1957

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Senate Bill No. 623, "An act making an appropriation for acquisition of real property, declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill appropriates $650,000 from the Capital Outlay and Savings Fund to the Department of Finance for the acquisition of the site for another state office building in the City of Sacramento. It was initially contemplated that this site would be acquired under Chapter 1649, Statutes of 1953 and Chapter 1714, Statutes of 1955, but the Attorney General has advised that these statutes are unworkable. As a result negotiations for this site have ceased pending the availability of this appropriation. In order to provide suitable state-owned quarters for state agencies now located in inadequate leased space as speedily as possible, the funds provided by this bill should be made immediately available.

I therefore recommend consideration of Senate Bill No. 623 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

"SECTION 1. Section 1300.15 of the Agricultural Code is amended to read:

1300.15. (a) (1) Any marketing order issued pursuant to this chapter shall provide for the establishment of an advisory board to assist the director in the administration of any marketing order. The members of the board shall be appointed by the director and may hold office at the pleasure of the director. If the marketing order affects directly only producers of a particular commodity the members of the board shall be producers. If the marketing order affects directly only handlers of a particular commodity the members of the board shall be handlers. If the marketing order affects directly both producers and handlers of a particular commodity, such board shall be composed of both producers and handlers. The number of producers or handlers upon any such board shall be of such number of producers or handlers as

the director finds is necessary to assist properly in the administration of such order. Upon the recommendation of the board, the director may appoint one person who is neither a producer nor a handler to represent the Department of Agriculture or the public generally.

(2) No member of any such board shall receive a salary but each shall be entitled to his actual expenses incurred while engaged in performing his duties herein authorized. The director may authorize such board: to enter into contracts or agreements, to employ necessary personnel including attorneys engaged in the private practice of the law, fix their compensation and terms of employment; and to incur such expenses, to be paid by the director from moneys collected as herein provided, as the director may deem necessary and proper to enable such board properly to perform such of its duties as are authorized herein. The duties of any such board shall be administrative only and may include only the following:

a. Subject to the approval of the director to administer such marketing order.

b. To recommend to the director administrative rules and regulations relating to the marketing order.

c. To receive and report to the director complaints of violations of the marketing order.

d. To recommend to the director amendments to the marketing order.

e. To assist the director in the assessment of members of the industry and in the collection of funds to cover expenses incurred by the director in the administration of the marketing order.

f. To assist the director in the collection of such necessary information and data as the director may deem necessary to the proper administration of this chapter.

(3) In addition to the advisory board there may be established one or more special committees or subcommittees to assist the advisory board in carrying out its duties and functions. Upon approval of the director each advisory board may establish committees or subcommittees to carry out assigned duties and functions and designate the members or alternate members of the board to serve upon such committees. If the marketing order so authorizes or upon recommendation of the board, the director may authorize the establishment of special committees or subcommittees of persons who are not members or alternate members of the board to perform specific duties and functions; provided, that the members and alternate members of any such special committee or subcommittee shall be appointed by the director.

Any action of any committee, special committee or subcommittee of the board shall be subject to final approval by the board. Members and alternate members of any committee, special committee or subcommittee whether by appointment or approval of the director shall be entitled to reimbursement for actual expenses incurred while acting in their authorized capacities.

(b) Subject to the legislative restrictions and limitations set forth herein any marketing order issued by the director pursuant to this chapter may contain any or all of the following provisions for regulating or providing methods for regulating producer marketing or the handling or any of the operations of processing or distributing by handlers of any agricultural commodity within this State, but no others:

(1) Provisions for determining the existence and extent of the surplus of any agricultural commodity, or of any grade, size or quality thereof, and providing for the control and disposition of such surplus, and for equalizing the burden of such surplus elimination or control among the producers, processors, distributors or other handlers affected. Notwithstanding any other appropriate means of equalizing the burden of surplus control and the elimination thereof as provided in this chapter, provision may be made for the creation of a stabilization fund to be used for purchasing or otherwise acquiring any portion of the surplus of any agricultural commodity either in fresh or processed form, except when processed in hermetically sealed containers, and for the diversion of such surplus quantity of such commodity so acquired into noncompetitive or by products uses or for disposing of such surplus in noncommercial channels. Moneys for such stablization fund shall be provided by means of the establishment of an assessment rate for such purpose levied upon producers or handlers or upon both producers and handlers. Such assessment rate shall be based upon the units in which such agricultural commodity is handled or marketed or upon any other uniform basis which the director determines to be reasonable and equitable. For convenience of collection, the director may collect any producer assessments from handlers of such commodity. Handlers paying such assessments for and on behalf of any producers are authorized to deduct such producer assessments from any moneys owed by such handlers to such producers.

(2) Provisions for limiting the total quantity of any agricultural commodity, or of any grade, size or quality thereof, which may be marketed by producers or processed, distributed or otherwise handled within this State during any specified period or periods, by any and all persons engaged in such producer marketing, processing, distributing or handling; provided, that any such limitation shall be applied under a uniform rule applicable to all such persons so regulated. The total quantity of

any such commodity so regulated and permitted to be marketed by producers, processed, distributed or otherwise handled, shall not be less than the quantity which the director finds is reasonably necessary to supply the market demands of consumers of such commodity.

(3) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size or quality thereof, which each handler may purchase or acquire from, or handle on behalf of, any and all producers thereof, within this State during any specified period or periods under a uniform rule, applicable to all handlers so regulated based upon the amounts produced or sold by such producers in a prior period which the director finds to be representative, or upon the current season's production or sales of such producers, or both, to the end that the total quantity of such commodity or of any grade, size or quality thereof, so purchased or handled within this State shall be apportioned equitably among the producers thereof.

(4) Provisions for allotting the quantity of any agricultural commodity, or of any grade, size or quality thereof, which each handler may process, distribute or handle within this State under a uniform rule, applicable to all handlers so regulated, based upon the quantities of such commodity or of any grade, size or quality thereof of the current season's crop which each such handler has available for such processing, distribution or handling, or upon the quantities of such commodity or of any grade, size or quality thereof so processed, distributed or handled by each such handler in a prior period which the director finds to be representative, or based upon both, to the end that the total quantity of such commodity or any grade, size or quality thereof, processed, distributed or handled within this State during any specified period or periods shall be equitably apportioned among all such handlers thereof.

(5) Provisions regulating the period, or periods, during which any agricultural commodity, or any grade, size or quality of such commodity, may be processed, distributed or otherwise marketed within this State by any and all persons engaged in such processing, distributing or marketing within this State; provided, that the total quantity of such commodity so regulated and permitted to be processed, distributed or otherwise marketed during such period or periods, shall not be less than the quantity which the director finds is necessary to reasonably supply the needs of consumers of such commodity.

(6) Provisions for the establishment of surplus, stabilization, or by-product pools for any agricultural commodity or of any grade, size, quality or condition thereof, and providing for the sale of the commodity in any such pool and for the equitable distribution among the persons participating therein of the net returns derived from the sale of such commodity. Whenever the marketing order authorizes the establishment of any such pool or pools the advisory board shall have power to receive such commodity from each producer or handler and to handle the same according to the grade, size, quality or condition thereof and to account to each producer or handler participating therein upon a pro rata basis for the net proceeds derived from the sale thereof.

The contents of any surplus pool shall not be marketed by the board in any form which would compete directly with that portion of the commodity which is marketed in regular channels of trade. However, any portion of any surplus pool may be transferred by the board upon any gratuitous basis to charitable organizations and other similar agencies under proper safeguards to insure that none of such commodity shall compete directly with the unrestricted portion of such commodity. The board may dispose of the contents of a stabilization pool in the regular marketing channels in such manner and at such times as the board deems advisable, consistent with the maintenance of stabilized marketing conditions for such commodity. The board may dispose of the contents of any by-product pool only for by-products or for other similar purposes under proper safeguards to prevent such portion of the commodity so disposed of from directly competing with that part of the commodity which is marketed in the usual form or in the regular channels of trade.

Whenever the marketing order authorizes the establishment of a surplus, stabilization, or by-product pool, the board shall have authority to arrange for and operate any necessary facilities for the storing, financing, grading, packing, servicing, processing, preparing for market, selling, and disposing of the contents of any pools provided for in this section; provided, however, the board shall not have authority to engage in commercial warehousing.

The board shall not have power to pledge all of the commodity in any such pools with banks or other lending agencies for the purpose of obtaining loans thereon. The board shall have title, for the purpose of financing and handling, to all of the commodity in any such pools

Whenever the marketing order authorizes the establishment of any type of pool authorized in this section, the board shall have authority to create, by a uniform assessment upon producers, or upon some other uniform and equitable basis, maintain, and disburse an equalization fund to be used for the removal of any inequalities between producers or handlers participating in any pool resulting from errors in estimating production or surplus or for indemnifying producers whose production, in whole or in part, is diverted in green form or otherwise from normal marketing outlets or diverted to by-products, relief, or other noncompetitive purposes pursuant to the provisions of the marketing order.

(7) Provisions establishing or providing for establishing with respect to any agricultural commodity either as delivered by producers to handlers or processors, or as handled, processed, or otherwise prepared for market, or as marketed by producers, handlers or processors: (A) grading standards of quality, condition, size, maturity or pack, which standards may include minimum standards provided the standards so established shall not be established below any minimum standards prescribed by law for such commodity; and (B) uniform inspection and grading of such commodity in accordance with the standards so established.

(8) Provisions for the establishment of plans for advertising and sales promotion to maintain present markets or to create new or larger markets for agricultural commodities grown in the State of California, or for the prevention, modification or removal of trade barriers which obstruct the free flow of agricultural commodities to market. The director is hereby authorized to prepare, issue, administer and enforce plans for promoting the sale of any agricultural commodity.

Provided, that any such plan shall be directed toward increasing the sale of such commodity without reference to a particular brand or trade name, *except that point-of-sale materials or services for retail store use may refer to brands or trade names if such reference is incidental to the commodity advertising and sales promotion program of the advisory board and is available to any such user upon request*, and

Provided further, that no advertising or sales promotion program shall be issued by the director which shall make use of false or unwarranted claims in behalf of any such product, or disparage the quality, value, sale or use of any other agricultural commodity.

(9) Provisions relating to the prohibition of unfair trade practices. In addition to the unfair trade practices, now prohibited by law, applicable to the processing, distribution or handling of agricultural commodities within this State, the director is hereby authorized to include in any marketing order issued hereunder provisions designed to correct any trade practice affecting the processing, distributing or handling of any agricultural commodity within this State which the director finds, after a hearing thereupon in which all interested persons are given an opportunity to be heard, is unfair and detrimental to the effectuation of the declared purposes of this chapter.

(10) Provisions for the application for, review, certification and equitable payment of, production adjustment benefits to growers from funds collected for such purpose on a uniform basis from all commercial growers of any agricultural commodity in the State, for which production adjustment payments are made. Such funds may be supplemented by funds, if any, received from federal, state or other agencies for such purpose.

No program of production adjustment adopted hereunder shall authorize payments for the removal of acreages of trees or vines of the species, variety or varieties specified in the program which have, during the three years immediately preceding the date of application, produced an annual yield per acre in excess of the comparably computed average yield from bearing trees or vines of the same species, variety or varieties for the State as a whole, such yields and averages to be determined by the director from statistical data compiled by state or federal agencies or such other data as the director deems to be representative and reliable.

(11) Provisions for carrying on research studies in the production, processing or distribution of any agricultural commodity and for the expenditure of moneys for such purposes. In any research in production or processing carried on hereunder, the Dean of the College of Agriculture of the University of California and the advisory board provided for in Section 1300.15 hereof shall cooperate in selecting the research project or projects to be carried on from time to time. Insofar as practicable such projects shall be carried out by said College of Agriculture, but if the dean of said college and the advisory board determine that the college has no facilities for a particular project or that some other research agency has better facilities therefor, the project may be carried out by other research agencies selected by the dean and the advisory board.

(12) Provisions establishing or providing authority for establishing, for any agricultural commodity, either as such commodity is produced or is delivered by producers to handlers, or as handled or otherwise prepared for market, or as marketed by producers or handlers, an educational program designed to acquaint producers, handlers or other interested persons with quality improvement, including sanitation practices, procedures or methods as applied to such commodity.

(c) In addition to authority to issue marketing orders regulating the processing or preparation for marketing of any or all portions of any agricultural commodity processed within this State, and in addition to authority to issue marketing orders regulating the distribution of any or all portions of any agricultural commodity within this State and subject to the legislative restrictions and limitations of Section 1300.14 of this chapter, the director may also issue marketing orders regulating the handling, processing, preparation for marketing or marketing of any or all portions of any agricultural commodity produced in this State for which marketing regulatory powers are not being exercised by the Federal Government under the provisions of the Marketing Agreement Act of 1937, as amended, being Public Law

No. 137, Seventy-fifth Congress, Chapter 296, First Session, 7 U. S. C. A. 674, 50 Statute 249."

Bill read second time.

Motion to Amend

Senator Cunningham moved the adoption of the following amendments:

Amendment No. 1

In line 3, of the title of the printed bill, after "29910.1", insert ", 29910.2".

Amendment No. 2

In line 6 of the title, after the word "counties", insert "and declaring the urgency of this act, to take effect immediately".

29910.2. When the issuance of bonds shall have been authorized pursuant to two or more propositions submitted at the same or different elections, all or any part of said bonds not theretofore issued may be combined and issued and sold as a single issue or series."

Amendment No. 4

On page 4, following line 37, insert

"SEC. 16. This act is an urgency measure necessary for the immediate preservation of public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: The peace, health and safety of citizens and residents of certain counties in this State require the immediate acquisition, construction and financing by said counties of facilities for the care and correction of juveniles, custody and rehabilitation of county prisoners, for police protection and the administration of justice, for hospital and medical treatment, for sanitary sewers and storm drains, and other public works essential to the peace, health, safety and well being of county residents. Although such facilities are critically and immediately needed, they must be a coordinated part of a long-range construction and financing program. The inflexible provisions of the existing law relating to the issuance and sale of county bonds make it extremely difficult to coordinate present financing requirements with the financing requirements for the future."

Amendments read, and adopted.

Bill ordered printed, and re-referred to Committee on Local Government.

COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

NEBRASKA STATE LEGISLATURE
March 19, 1957

President of the Senate
Sacramento, California

DEAR MR. PRESIDENT: I enclose herewith a copy of Legislative Resolution 10, which was passed by the Legislature of Nebraska in Sixty-eighth Regular Session on the thirteenth day of March, 1957.

Very truly yours,

HUGO F. SRB, Clerk of the Legislature

Enclosure

Legislative Resolution 10—Legislature of Nebraska, Sixty-eighth Session

Introduced by Ray C. Simmons, 11th District

WHEREAS, The State of Nebraska is now in a period of severe drought and its Legislature is striving to economize in expenditures, and

WHEREAS, Through federal grant in aid programs the federal government by extravagant and unnecessary spending is forcing Nebraska also to spend extravagantly to match and thus obtain back part of its own money, and

WHEREAS, Nebraska citizens pay income taxes which go to Washington and are returned in part to Nebraska under federal grant in aid programs in amounts reduced by bureaucratic overhead, creating the false impression that the state is getting something for nothing, and,

WHEREAS, In returning funds to Nebraska the federal government ties strings to the use of these funds which interfere with local government, complicates the enactment of state legislation and forces the state to spend in fields it believes unwarranted, and

WHEREAS, It is common knowledge that local projects financed in part by federal funds usually cost excessively because of unnecessary federal requirements, and,

WHEREAS, The Nebraska Legislature feels that its citizens know better than the federal government how to spend the citizens' money and that local government is more capable and efficient than the federal government in managing local programs.

Now, therefore, be it resolved by the Members of the Nebraska Legislature in Sixty-eighth Session assembled:

1. That the federal government refrain from enacting new grant aid programs and re-examine all such existing programs and end or reduce their costs wherever possible.

2. That copies of this resolution be transmitted to the President of the United States, Vice President of the United States as President of the Senate of the United States, to the Speaker of the House of Representatives of the United States, and to each member from Nebraska in the Senate of the United States and in the House of Representatives of the United States.

3. That copies of this resolution be transmitted to the presiding officers of the Legislatures of the other forty-seven states for their information and consideration.

DWIGHT W. BURNEY, President of the Legislature

I, Hugo F. Srb, hereby certify that the above is a true and correct copy of Legislative Resolution 10, which was passed by the Legislature of Nebraska in Sixty-eighth regular session on the thirteenth day of March, 1957.

Motion carried.

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, March 24, 1957

Hon. Randolph Collier
Senate Chamber

Public Utility Property Assessment—No. 5846

DEAR SENATOR COLLIER: This will supplement our January 19, 1957 opinion to you as to the assessment duties of the Board of Equalization with respect to public utility property. This opinion was printed in the Senate Journal for March 8, 1957, at page 753. We have noted the opinion of the Attorney General addressed to you and printed in the Senate Journal for March 21, 1957, at page 1076.

The questions which you addressed to both officers are the same, but the answers given are apparently conflicting. For that reason we have re-examined the conclusions expressed in our January 19 opinion.

To the extent that our opinion can be interpreted as holding that the Board of Equalization's assessment duties include *non-public utility property* merely because the transmission or sale of gas is involved—it must be modified. We agree with the Attorney General in this regard. The phrase "all property . . . owned or used by . . . companies engaged in the transmission or sale of gas or electricity" constitutes a term used in this State to refer to public utilities. This was true under the constitutional provision from 1910 to 1933 (*Story* v. *Richardson* (1921) 186 Cal. 162; *Nevada-California Power Co.* v. *Borland* (1926) 76 Cal. App. 519), and we think it continues to be true under the present provision (*General Pipe Line Company* v. *State Board* (1936) 5 Cal. 2d 253).

Our affirmative answer to your question, therefore, must be qualified, as is the Attorney General's answer to you. The Board of Equalization has the duty of assessment in the situation presented by you only if the company or subsidiary involved is engaged in the transmission or sale of gas in such a way as to constitute it a public utility, or if it is otherwise a public utility.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

The following resolutions were offered:

By Senator Burns:

Senate Resolution No. 88

Relative to augmenting funds of the Senate Fact-Finding Committee on Un-American Activities

Resolved by the Senate of the State of California, That, in addition to any money heretofore made available, the sum of eight thousand five hundred dollars ($8,500) or so much thereof as may be necessary is hereby made available from the Contingent Fund of the Senate for the expenses of the Senate Fact-Finding on Un-American Activities (created by Senate Resolution No. 121, as amended, 1955 Regular Session) and its members, and for any charges, expenses, or claims it may incur under said resolution, to be paid from said contingent fund and disbursed after certification by the chairman of the committee upon warrants drawn by the State Controller on the State Treasurer.

Resolution read, and referred to Committee on Rules.

By Senators Donnelly, Cobey, Short, and Burns:

Senate Resolution No. 89

Relating to construction of federal-aid secondary highways

WHEREAS, That portion of the central San Joaquin Valley lying to the east of United States Highway 99 is an intensively cultivated agricultural area and contains numerous cities and other centers of population; and

WHEREAS, The population of that area has increased greatly in recent years and shows every indication of increasing still further in the immediate future; and

WHEREAS, This increase in population and intensification of agricultural activities have made intolerable existing highway facilities in that area; it is not served by any north-south federal or state highway; county highways available for traversing the area east of United States Highway 99 from Stockton to Fresno are wholly inadequate to the volume of traffic that would ordinarily travel that route; the alternative route requires traffic to move westward by county highways to United States Highway 99 which is the primary, and overburdened, north-south artery, and to re-enter the area by other county roads; amelioration of these conditions is essential to maintenance of the vast agricultural and related activities of the area and to accommodation of the further development that is steadily taking place in that area; and

WHEREAS, The Federal-Aid Highway Act of 1956 (70 Stat. 374; 23 U. C. S. 151) authorizes the allocation of federal funds to the several states to meet the cost of highway projects and specifically provides that 30 percent of the sums appropriated be expended for projects on the federal-aid secondary highway system; and

WHEREAS, The State of California has made provision for the matching of federal funds and has authorized action necessary to comply with the requirements of all federal laws, rules, and regulations (Secondary Highways Act of 1951; S. & H. C. 2200, et seq.); now, therefore, be it

Resolved by the Senate of the State of California, That the Senate of the State of California respectfully requests the Secretary of Commerce and the Federal Highway Administrator to investigate and approve the construction of a highway from the vicinity of the City of Stockton to the vicinity of the City of Fresno via

a route lying to the east of United States Highway 99 and paralleling the route of the Santa Fe Railway, as a project on the federal-aid secondary highway system to be financed from moneys made available under the Federal-Aid Highway Act of 1956; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the Secretary of Commerce, the Federal Highway Administrator, and to each Senator and Representative from California in the Congress of the United States.

Resolution read, and referred to Committee on Rules.

By Senator Murdy:

Senate Resolution No. 90

Relative to the 100th anniversary of the City of Anaheim

WHEREAS, This year marks the 100th anniversary of the City of Anaheim, Orange County, California, as an incorporated city; and

WHEREAS, The City of Anaheim was founded in 1857 by a group of sturdy pioneers who realized the potentialities and the opportunities afforded by that part of California and who, with their descendants down to the present time, have devoted themselves to the building of a municipality to which they can with pride apply the term of home, and which has elicited the admiration of all informed people by its spectacular advancement; and

WHEREAS, In the early days its interests and activities were purely agricultural, in recent years it has forged ahead as a community in which residential, industrial and cultural activities are represented; now, therefore, be it

Resolved by the Senate of the State of California, That it congratulates the City of Anaheim, Orange County, California, and the good people who guide its destiny for the wisdom of the policies which have been adopted for the development of that city, and for the phenomenal progress it is making, and upon the arrival of its 100th anniversary; and be it further

Resolved, That the Secretary of the Senate be and he is hereby directed to have prepared a suitably engrossed copy of this resolution, and to forward the same to the "Citizens of Anaheim."

Resolution ordered placed on file.

A person shall be deemed to be a broker, within the meaning of this section, if, for another and for a compensation, he does any of the acts or participates in any of the transactions herein defined, even though at some subsequent time he may obtain title to, or procure in his own name the certification or registration of, the yacht or ship in question.

8910. An "exclusive listing" is an agreement between the owner of a vessel and a broker which provides that only such broker shall have the right to negotiate the sale, trade, or exchange of the vessel and that if the vessel is sold, traded, or exchanged by the owner or any other person during the period of the agreement, the owner shall be liable to the broker for the agreed commission, notwithstanding that the broker had no part in negotiating such sale, trade, or exchange.

Article 2. Administration

8913. There is in the Department of Professional and Vocational Standards a Yacht and Ship Brokerage Board, which consists of five members appointed by the Governor.

The board is vested with the power to and shall administer the provisions of this chapter.

8914. The board is composed of five members, all of whom shall be, and shall have been for a period of not less than five years preceding the date of their appointment, actively engaged and licensed as a Class A or Class B yacht and ship broker and shall continue to be so engaged and licensed during the term of their office.

8915. Members of the board shall be appointed by the Governor for a term of four years, subject to removal by him at his pleasure. Two members of the board shall be yacht brokers whose principal places of business are located in Northern California; two shall be yacht brokers whose principal places of business are lo-

cated in Southern California, except San Diego; and one member shall be a yacht broker whose principal place of business is in San Diego, California.

The terms shall expire in the same relative order as to each member as the term for which he holds office when this chapter takes effect.

Vacancies shall be filled by the Governor for the unexpired term.

Each member shall hold office until the appointment and qualification of his successor or until six months shall have elapsed since the expiration of the term for which he was appointed, whichever first occurs. No person shall serve as a member of the board for more than two consecutive terms.

8916. The board shall organize and elect a president from among its members for a term of one year at the meeting of January 15th of each year. The newly elected president shall assume his duties at the conclusion of the meeting at which he was elected. Reelection to office during membership is unrestricted.

Special meetings may be called at any time by the president or by any three members of the board upon notice for such time and in such manner as the board may provide.

8917. Three members of the board shall constitute a quorum for the transaction of business, for the performances of any duty, or the exercise of any power or authority of the board.

A vacancy on the board shall not impair the power of the remaining members to perform all duties and exercise all powers of the board providing the members remaining constitute a quorum.

8918. The board may:

(a) Prescribe reasonably necessary rules and regulations to carry this chapter into effect.

(b) Perform all other acts and duties reasonably necessary for the proper enforcement of this chapter.

(c) For the express purpose of examining applicants for licenses, prescribe, and amend from time to time, rules of professional conduct appropriate to the establishment and maintenance of a high standard of integrity and dignity in the yacht and ship brokerage industry. 8920. The board shall adopt a seal with the words "Board of Yacht and Ship Brokerage, State of California" and such other device as it may desire thereon, by which it shall authenticate all papers and documents under its control.

Copies of all records and papers in the board's office shall be received in evidence in all cases, when certified by the registrar under the seal of the board, equally and with like effect as the original.

8921. The Attorney General shall act as the attorney for the board in all actions and proceedings and shall render to the board opinions upon all questions of law arising under this chapter or in its administration.

8922. Every violation of this chapter is a misdemeanor.

8923. The board shall appoint a registrar, fix his compensation with the approval of the Director of Finance, and prescribe his duties. The registrar is the executive officer and secretary of the board.

8924. The registrar with the approval of the board and subject to the provisions of the State Civil Service Act may employ and fix the compensation of such deputies, clerks, and assistants as may be necessary properly to administer this chapter.

Neither the registrar nor any deputy, clerk, or assistant shall be interested in any company or brokerage firm as director, stockholder, officer, member, agent, or employee, nor act as a broker or salesman, or have any interest with any broker or salesman.

The registrar may prescribe the duties of deputies, clerks and assistants.

8925. The board may establish the main office of the board and branch offices of the board in any city of this State.

8926. The registrar shall keep a complete record of the board's actions, and shall maintain at the office of the board and open to public inspection during office hours a complete indexed record of all applications for licenses issued, licenses renewed, and all revocations, cancellations, and suspensions of licenses.

8927. The registrar shall publish or cause to be published and distributed on or before March 1st of each year a directory of licensed brokers and salesmen, and distribute same to said brokers and salesmen. 8928. Within 30 days prior to each general session of the Legislature, the board shall submit to the Governor a full and true report of its operations during the preceding biennium, including a complete statement of receipts and disbursements.

8929. The registrar, and any member of the board may administer oaths for the purpose of administering this chapter.

Article 3. Licensing

8930. It is unlawful for any person to engage in the business or act in the capacity of a yacht and ship broker or salesman without first obtaining a license so to do. In addition to the provisions of Section 8922 of this chapter, any person violating this section shall be required to refund all remunerations received while illegally acting in the capacity of a yacht and ship broker or salesman.

8931. Only the person to whom the license is issued may perform or offer to perform any act subject to the provisions of this chapter.

8932. This chapter does not apply:

(a) To a transaction involving the sale by a person of his own yacht or ship.

(b) To services rendered by an attorney at law in performing duties as such attorney at law, limited to his client's vessels under litigation or probate.

(c) To any receiver, trustee in bankruptcy or other person acting under the order of any court.

(d) To a transaction involving the sale of a new yacht or ship.

(e) To any transaction involving the foreclosure of a security interest in a yacht or ship.

8932.1. Any person purchasing used yachts or ships for resale must transfer actual title to any such yacht or ship into his name and have in his possession, subject to inspection by the board, a good and sufficient bill of sale or other fit evidence of title whenever such yacht or ship is not required to be documented with the Marine Registry or registered with the Motor Boat Registry, if any such person wishes to claim exemption under this chapter.

8933. All applications for licenses shall be made in writing and every application shall be accompanied by the recommendations of two yacht and ship or real estate brokers of the county in which the applicant resides or has his place of business, certifying that the applicant is honest, truthful, and of good reputation, and recommending that the applicant be granted a license.

If the applicant has not resided or engaged in business in the county for at least one year, two yacht and ship or real estate brokers of any county in which he formerly resided or had his place of business may make such recommendations.

All applications for license or renewal thereof shall be upon such appropriate forms as may be prescribed by the board.

8933.1. The board may deny a license upon applicant's failure to:

(a) Pass the written examination.

(b) Certify that he has never been convicted of a felony.

The board may also deny a license in the event the applicant has been convicted of a felony.

8934. Every broker shall maintain a definite place of business in this State as his principal office and may establish other branch offices throughout the State. A post-office box address is not considered a definite place of business.

Every broker maintaining more than one place of business within this State shall procure an additional license for every branch office maintained by him.

Any broker employing a salesman, which salesman regularly transacts business at a location other than the established principal office or branch offices of said broker, shall be deemed to be maintaining a branch office at such other location.

8935. (a) Every license issued to a corporation entitles the designated officer of the corporation to act as a licensee under the license and every license issued to a copartnership entitles the designated member to act as a licensee under the license.

(b) Every corporation making application for a license under this chapter shall furnish the board with a resolution of its board of directors, giving the name of the officer who is to act for and on behalf of the corporation, and every copartnership

making an application for a license under this chapter shall set forth in the application the name of the partner who is to act under a license for and on behalf of the copartnership.

(c) Every application by a copartnership for a broker's license shall be accompanied by an application for a salesman's license for each member of the copartnership other than the partner who has been named by the copartnership to act for and on behalf of such copartnership license when issued.

(d) Every corporation licensed under the provisions of this chapter may, by a resolution of its board of directors, substitute another officer for the one named in the license; provided, the person to be substituted qualifies by passing a written examination and the corporation pays the required fees, as set forth in this chapter.

(e) Every copartnership licensed under the provisions of this chapter may substitute another partner for the one named in the license; provided, such partner qualifies by passing the written examination and the copartnership pays the required fees as set forth in this chapter.

8936. Every license shall be prominently displayed in the office of the broker in which the business of the broker or salesman is transacted. Every salesman's license shall remain in the possession of the broker by whom the salesman is employed until canceled or until he leaves the employment of the broker. Immediately upon the salesman's withdrawal from the employment of the broker, the broker shall return the salesman's license to the board for cancellation.

8937. A salesman's license shall become inoperative upon the termination of such salesman's employment by a licensed broker, or upon the suspension or revocation of the employing broker's license; provided, however, that such salesman's license may be transferred to another licensed broker upon the holder's request. Such request for transfer must be accompanied by an appointment in writing executed by the new employing broker.

Article 4. Disciplinary Proceedings

8938. The board may prosecute all persons guilty of violating the provisions of this chapter. The board may employ inspectors, special agents and investigators as it may deem necessary to investigate the actions of any broker or salesman, whether or not licensed, against whom a verified written complaint has been received. The board, with the approval of the Director of Finance may fix the compensation to be paid for such services.

8939. The proceedings under this article shall be conducted in accordance with Chapter 5 (commencing at Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the board shall have all the powers granted therein.

8940. After hearing, as set forth in Section 8939, the board may suspend or revoke the license of a broker or salesman who has committed any of the following acts:

(a) Makes a substantial misrepresentation upon which any person has relied;

(b) Engages in a continued and flagrant course of misrepresentation, whether or not relied upon by another person;

(c) Acts for the buyer and seller in a transaction without the knowledge and consent of both parties;

(d) Commingles the money or other property of his principal with that of his own;

(e) Does any of the acts or participates in any of the transactions defined in Section 8902 of this code with respect to any yacht or ship not registered in accordance with the provisions of Sections 3101 to 3112, inclusive, of the Revenue and Taxation Code;

(f) Performs any act or participates in any transaction which belongs to or is connected with a class or activity other than the class for which he is licensed;

(h) Quotes prices higher than gross listing price;

(i) Engages in any other conduct constituting fraud or dishonest dealings, either with respect to his principal or other persons.

8941. After hearing, as set forth in Section 8939, the board may suspend or revoke the license of a broker or salesman who within three years immediately preceding has committed any of the following acts or against whom and within said period any of the following conditions exist:

(a) Has been convicted of a felony and has withheld information of that fact from the board. The record of conviction, or a certified copy thereof, shall be conclusive evidence of such conviction.

(b) Knowingly authorizes, directs, connives, or aids in the publication, advertisement or distribution or circulation of any material false statement or misrepresentation concerning his business or any such transactions under this chapter.

(c) Wilfully disregards or violates any of the provisions of this chapter.

(d) Wilfully uses the term "yacht and ship broker" or "yacht and ship salesman" without being licensed as such.

8942. The board may suspend or revoke the license of a broker or salesman who procures a license under this chapter for himself or another by fraud, misrepresentation, or deceit. An action to suspend or revoke a license for a violation of the provisions of this section shall be commenced within three years after the discovery by the board of such violation.

8943. A plea or verdict of guilty or conviction following a plea of nolo contendere made to a charge of a felony or of any offense involving moral turpitude is deemed to be a conviction within the meaning of this article. The board may order the license suspended or revoked or may decline to issue a license, when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment.

8944. Advertising of any service for which a license is required under the provisions of the Yacht and Ship Brokerage Act shall not be under the name of a salesman unless the name of the employing broker is also set forth therein.

8945. (a) Every person, partnership or corporation holding a broker's license under the provisions of the Yacht and Ship Brokerage Act who does not immediately place all funds entrusted to him by his principal or others in a neutral escrow depository or in the hands of principals, shall maintain a trust fund account with some bank or recognized depository and place all such entrusted funds therein upon receipt thereof.

Said trust fund account shall designate the broker as trustee and all such trust fund accounts must provide for withdrawal of the funds without previous notice.

(b) Every broker required to maintain such trust fund account shall keep records of all funds deposited therein, which records shall clearly indicate the date and from whom he received the money, the date deposited, the dates of withdrawals, and other pertinent information concerning the transaction.

Article 5. Revenue

8946. Every license issued under this chapter expires on the December 31st following its issuance.

Every person licensed under this chapter shall renew his license on or before January 1st of each year.

8947. If a license is not renewed by February 1st of the year succeeding the period for which the license was granted or renewed, the license shall become delinquent. A delinquent license shall be reinstated upon the filing of an application and the payment of the renewal fee and a penalty, but not otherwise. The penalty shall be an amount equal to the amount of the renewal fee or fees which the licensee would have been required to pay to keep his license from becoming delinquent.

Every delinquent license that is not reinstated within two years of the date when the license became delinquent shall become forfeited and shall not be reinstated.

Every person holding a forfeited license shall forthwith return such license to the board upon the demand of the board.

Every application for the reinstatement of a delinquent license shall be sworn to before a notary public or other person authorized to take acknowledgments under oath. The application shall state that applicant has not performed any act nor participated in any transaction described in Section 8902 hereof, during the period in which his license was delinquent, and that he has not been guilty of an offense nor done any act that would have been a cause for the suspension or revocation of his license, as set forth in Sections 8940 and 8940.1 hereof.

8948. All fees charged and collected under this chapter shall be paid by the board at least once a month, accompanied by a detailed statement into the State Treasury to the credit of the Yacht and Ship Brokerage Fund.

The board may establish a revolving fund in such an amount as it may determine.

8950. The board shall charge and collect the following fees:

1. One hundred dollars ($100) for every original broker's license, regardless of class.

2. An annual renewal fee for every original broker's license, regardless of class, which fee shall be set annually by the board at not more than sixty dollars ($60) and not less than thirty-five dollars ($35).

3. Ten dollars ($10) for every original salesman's license, regardless of class.

9. One dollar ($1) for changing the name or address of a broker on the records of the department.

10. One dollar ($1) for every transfer of a salesman's license for every change of employment.

11. One dollar ($1) for a duplicate license.

12. Ten dollars ($10) for the substitution of a name in the license of a corporation or copartnership, and an examination fee of fifteen dollars ($15).

Article 6. Classification and Examination

8951. Yacht and ship brokers and salesmen shall be classified on the following basis: A license issued to a broker or salesman shall be limited to the class or classes for which the applicant has demonstrated his qualifications and fitness by his application and examination.

No salesman shall be licensed in any class other than that for which the employing broker is licensed.

A person shall be deemed qualified to be licensed as a broker only if, as shown by the affidavits of two responsible persons, he has any one of the following:

(a) Held master papers for a period of one year or has owned and operated a shipyard, or ship repair facility, or a landing or mooring basin or has been a marine surveyor, or has been a foreman or superintendent of a shipyard for a period of one year, prior to making an application;

(b) Been licensed by this or another state for a period of one year; or

(c) Been employed as a yacht or ship salesman for at least one year,

(d) Been engaged in the steamship business for a period of one year, as owner or operator.

8952. The board shall issue licenses for the following classes:

(a) Yacht and ship brokers or salesmen, covering all phases of the business.

8953. Each applicant for a license shall take a written examination to determine his qualifications and fitness to engage in the activities of the class or classes for which he makes application, and said examination papers shall be kept as a permanent file in the principal office of the board. To qualify for an original license, an applicant must receive a minimum grade of 75 on all the subjects of his written examination.

Examinations shall only be conducted at the principal office or branch offices of the board.

Each licensee, other than one belonging to general class (a), may make written application to broaden the scope of his original license by including therein the activities of any other class. Before being granted such a license, the applicant must take a written examination covering the requirements for such additional class or classes.

A licensed broker may request the withdrawal of an application for one of his salesmen before such salesman has taken his written examination; but in such case, the board shall retain the examination fee but shall return to the broker the original license fee.

The failure of an applicant for a license to appear at the time and place designated by the board for the written examination, unless such applicant has a valid excuse, shall act as a forfeiture of the examination fee, and any such applicant shall be required to pay an additional fee before being permitted again to take the written examination.

8954. The board shall ascertain by written examination that the applicant, and in the case of a copartnership or corporation, that each officer, agent or member, thereof through whom it proposes to act as a licensee, has a general and fair understanding of the obligations between principal and agent, of the principles of yacht and ship brokerage practices, and the canons of business ethics pertaining thereto.

8955. The board shall select suitable and appropriate questions for the written examination for each class for which the applicant has made application, in order to determine the applicant's knowledge of and experience in the following subjects:

(b) Such licenses shall be issued only to an applicant who has a valid contract of employment as such salesman with a duly and regularly licensed broker.

(c) An application must be filed for a temporary license and for a permanent license, and at the same time the applicant must pay the prescribed fee.

(d) The applicant must state under oath his qualifications for the position of salesman, and must show that he has not been guilty of any conduct and has not done any act that would constitute good cause for the suspension or revocation of a permanent license.

(e) On or before the expiration date of the temporary license, such licensee shall take a written examination for a permanent license of the class or classes which he selects and for which he is qualified. If without valid excuse he fails to appear for the examination at the time prescribed, the examination fee shall be forfeited."

As a basis for this determination, the board shall consider sales and other appraisal data compiled by appraisers competent to determine accurately the market value of the property. These data shall relate to [representative samples] *a random stratified sample* of *tangible* property subject to local assessment [in each county] sufficient

in [number] *size* and dispersion to assure [an] *a statistically* adequate [cross-section of the taxable wealth within the county, both as to the classes of property enumerated and as to the location thereof] *representation of the several classes of property in each county in which such survey is made. The board shall make surveys each year in no fewer than 18 and no more than 22 counties. In each county of the State the board shall make such surveys not less often than triennially.*

SEC. 12. Section 1832 of said code is amended to read:

1832. [Utilizing those data, the board shall determine also the average relationship between the assessed value of such property and the market value therof for the State as a whole. This determination of average relationship shall not thereafter be revised regardless of whatever revisions may be made subsequently in the determination of the relationships between assessed and market values for individual counties.] *After completing a survey pursuant to Section 1831, the board shall estimate any change that may have occurred in the total market value of tangible property subject to local assessment between the lien date of the roll for which the survey was made and the lien date of the current roll. The board shall use as the basis for estimate factors indicative of change or lack of change in the total market value of the property. The relationship between the total assessed value of the tangible property on the current local roll and the estimated total market value so determined shall be computed for each county of the State and for the State as a whole by the second Monday in July of each year.*

SEC. 13. Section 1833 of said code is amended to read:

1833. [The board shall complete this survey for each county by the second Monday in July of each year. On or before the third Monday in July, a report of the survey, together with a notice of the determination of the relationship between assessed values and market values for the county and for the State as a whole, shall be transmitted to the county assessor and to the clerk of the board of supervisors of each county.] *As soon as appraisals have been made in any county by the board pursuant to Section 1831, the board shall give the assessor of the county a reasonable opportunity to examine and discuss the appraisals with the board appraisers before the board makes any final determination of the relationship between the total value of land, improvements, and tangible personal property and the market value thereof as required by Section 1831.*

SEC. 14. Section 1834 of said code is amended to read:

1834. If the county, through its assessor or board of supervisors, desires to be heard with respect to the assessment ratio based upon [the] *a* survey *made pursuant to Section 1831 or upon calculations made pursuant to Section 1832*, opportunity for such hearing shall be afforded by the board between the [third Monday in July and the third Monday in August] *first and third Mondays in August*, upon application therefore in writing filed not later than the first Monday in August. The application shall specify in what respects the county believes that the determination of the relationship between the assessed value and the market value of the property within the county is in error.

SEC. 15. Section 1836 of said code is renumbered and amended to read:

[1836] *1835*. [Whenever the percentage of assessed to market value in any county as determined by the board does not differ from the state-wide average of assessed to market value, as likewise determined, by more than 10 percent of that state-wide average, the board shall equalize the valuation of the taxable property in the county for the purposes of taxation by assessing, on the board roll for the county, land, improvements and tangible personal property at a valuation which bears the same relationship to the market value of the property determined in pursuance of Section 755 as is borne by the assessed value of property on the local roll to the market value thereof, as that relationship has been determined under this article.] *Equalization by the board of the valuation of taxable property in counties for the purposes of taxation shall be by raising or lowering the combined value of land, improvements, and tangible personal property entered upon the roll by the assessor of the county. Such equalization by the board shall conform to the following schedule:*

(a) For assessments made as of the first Monday in March, 1958, the board shall equalize assessments on the local roll to the end that no county shall have a ratio of assessed to market value as determined pursuant to Sections 1831 and 1832 and as equalized pursuant to this section that is lower than 25 percent;

(b) For assessments made as of the first Monday in March, 1959, the board shall equalize assessments on the local roll to the end that no county shall have a ratio of assessed to market value as determined pursuant to Sections 1831 and 1832 and as equalized pursuant to this section that is lower than 27 percent;

(c) For assessments made as of the first Monday in March, 1960, the board shall equalize assessments on the local roll to the end that no county shall have a ratio of assessed to market value as determined pursuant to Sections 1831 and 1832 and as equalized pursuant to this section that is lower than 29 percent;

(d) For assessments made as of the first Monday in March, 1961, the board shall equalize assessments on the local roll to the end that no county shall have a ratio of assessed to market value as determined pursuant to Sections 1831 and 1832 and as equalized pursuant to this section that is lower than 31 percent;

(c) For assessments made as of the first Monday in March, 1962, and for every year thereafter, the board shall equalize assessments on the local roll to the end that no county shall have a ratio of assessed to market value as determined pursuant to Sections 1831 and 1832 and as equalized pursuant to this section that differs from 33⅓ percent.

SEC. 16. Section 1837 of said code is renumbered and amended to read:

[1837] *1836.* [Whenever the percentage of assessed to market value in any county as determined by the board differs from the state-wide average of assessed to market value, as likewise determined, by more than 10 percent of that state-wide average, the board shall equalize the valuation of taxable property in the several counties of the State for the purposes of taxation either by the method prescribed in Section 1836 or by raising or lowering the value of land, improvements and tangible personal property entered upon the roll by the assessor of the county by that percentage required to make the assessed valuation of said property conform to the state-wide ratio of assessed to market value as established under this article.] *The board shall adjust the valuation of the taxable property in the county for the purposes of taxation by assessing, on the board roll for the county, land, improvements, and tangible personal property at a valuation which bears the same relationship to the market value of the property as that applied to locally assessed property, as determined pursuant to Section 1835, except that the ratio of assessed to market value, expressed as a percent, for state-assessed property shall not be reduced by more than two percentage points each year, to the end that all state-assessed property shall be subject to assessment at 33⅓ percent of the market value thereof for assessments made as of not later than the first Monday in March, 1967. For assessments made as of the first Monday in March, 1967, and for every year thereafter, the board shall assess all property subject to state assessment at 33⅓ percent of the market value thereof, as required by Section 14, Article XIII of the California Constitution and by Sections 110 and 110.1 of the Revenue and Taxation Code.*

SEC. 17. Section 1838 of said code is renumbered and amended to read:

[1838] *1837.* No sales or appraisal data relating to individual properties obtained for the purposes of any survey under this chapter shall be made public and no state or local officer gaining knowledge thereof in any action taken under this chapter shall make any disclosure with respect thereto except as that may be required for the purposes of this chapter. *The board shall, however, prepare tabulations each year showing the ratios of assessed to market value of property subject to local assessment for each county in the State and for the State as a whole as determined pursuant to Sections 1831 and 1832. Such tabulations shall also show the ratio of assessed to market value for the individual properties in the random stratified sample when surveys are conducted for a county pursuant to Section 1831, as well as the calculations by which the ratio of assessed to market value for such county is determined from the ratios applicable to individual properties within that county. Such tabulations shall also show the data used to estimate the total market value of the tangible property on the current local roll from the total market value of the tangible property on the local roll of a prior year, as required by Section 1832, as well as the statistical methods used to arrive at the determination required by Section 1832. All such tabulations shall be open for inspection by all persons interested.*

SEC. 18. Section 1839 of said code is renumbered and amended to read:

[1839] *1838.* The board shall meet at the State Capitol on the third Monday in July and remain in session from day to day, holidays excepted, up to and including the third Monday in August. During this session, under rules of notice prescribed by the board, it shall equalize the assessment of property as prescribed by law.

SEC. 19. Section 1840 of said code is renumbered and amended to read:

[1840] *1839.* The final action of the board in equalizing an assessment or a local roll shall be performed only at the State Capitol.

SEC. 20. Section 1842 of said code is renumbered and amended to read:

[1842] *1840.* When the equalization is completed, the secretary of the board shall transmit to each county auditor *and board of supervisors and each city council involved* a statement of:

(a) The changes made by the board in the local roll.

(b) The percentum to be added to or deducted from the valuation of the roll.

This statement is prima facie evidence of the regularity of all proceedings of the board resulting in the action which is the subject matter of the statement.

SEC. 21. Section 1843 of said code is renumbered and amended to read:

[1843] *1841.* As soon as the auditor receives from the board the statement of its equalization, he shall enter the corresponding changes in a column provided with a proper heading on the roll, counting any fractional sum when more than [five dollars ($5) as ten dollars ($10),] *fifty cents ($0.50) as one dollar ($1),* and omitting it when [five dollars ($5)] *fifty cents ($0.50)* or less, so that no separate valuation contains a fraction of [ten dollars ($10),] *a dollar,* and he shall add the column to show the total value of the property in the county as corrected by the board.

SEC. 22. Section 1903 of said code is amended to read:

1903. [The equalized value shall be entered on the roll transmitted by the board to the city auditor.] *Upon receiving this information from the city auditor, the board shall determine the relationship between the total assessed value of property subject to local assessment on the city roll and the total assessed value of such property on the county roll and shall immediately thereafter notify the city of its determination. At any time prior to the third Monday in August, the board may alter this determination if it finds that the original determination was in error.*

SEC. 23. Section 1908 of said code is renumbered and amended to read:

[1908] *1904.* When the determination has become final, the board shall enter the assessment of state assessed property upon the roll to be transmitted to the city for the purposes of city taxation at valuations which bear the same relationship to the [market] *assessed* value of the property [as theretofore determined] *for county purposes* as has been found to exist with respect to [city assessed] *property subject to local assessment* [property] under this article, *but in no event at more than its actual value.*

SEC. 24. Section 2002 of said code is renumbered and amended to read:

[2002] *2001.* [If the percentage of assessed to market value in any county, as certified by the board under Section 2001, differs from the state-wide average of assessed to market value, as likewise certified by the board, by more than ten (10) percent of that state-wide average, whenever] *If, for any reason, the board shall fail to equalize assessments as required by Sections 1835 and 1836, or if, for any reason, the county auditor shall fail to act according to the requirements of Section 1841,* any state department, board or agency which allocates funds to the county or any district lying wholly or partly within the county upon the basis of the assessed valuation of property, shall adjust the value of all land, improvements and tangible personal property entered upon the local roll of the county [after equalization, shall be adjusted] for purposes of such allocation to eliminate the difference between the county [percentage and the state-wide average] *ratio of assessed to market value as determined pursuant to Sections 1831 and 1832 and the ratio of assessed to market value required by Section 1836 for purposes of taxation.* Similar adjustment shall be made for the purpose of determining eligibility for a payment of state funds whenever such eligibility is affected by the assessed value of property owned by the prospective recipient.

SEC. 25. Section 2003 of said code is renumbered and amended to read:

[2003] *2002.* In a district situated partly in one county and partly in one or more counties, the adjustment for which provision is made in Section [2002] *2001* shall be made separately for each part of the district in a different county.

SEC. 27. If any section, subsection, sentence, clause, or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act, and each section, subsection, sentence, clause, and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

SEC. 28. There is hereby appropriated annually, for each fiscal year, out of any money in the State Treasury not otherwise appropriated, the sum of _____ dollars ($ _____) to provide for surveys pursuant to Section 1831.

In addition to the sum specified above, there shall be provided for surveys pursuant to Section 1831 any additional sums specified in any appropriation made therefor.

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 1778.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 21, 1957

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Senate Bill No. 1778, "An act to add Section 54157.1 to the Government Code, relating to the repair and restoration of property damaged or destroyed by storms or floods, making an appropriation in augmentation of Section 2 of the Flood Relief Law of 1956 to provide state assistance to local agencies for flood relief pursuant to said law, and declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

The Flood Relief Law of 1956 provided for state assistance to local agencies in the restoration of levees, irrigation works, city streets, county roads and other public property destroyed or damaged by the severe floods in December 1955 and January and February 1956. Federal moneys have also been made available for the same purpose. This bill appropriates an additional $1,200,000 from the General Fund to complete the program of State's aid in this work. It also provides that applications by local agencies for an allocation of state funds may not be made after June 1, 1957. The latter date coincides with the termination of the federal grants-in-aid. In order that this necessary work may be completed as speedily as possible, the funds provided by this bill should be made immediately available.

I therefore recommend consideration of Senate Bill No. 1778 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 494.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 18, 1957

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Senate Bill No. 494, "An act making an appropriation for printing constitutional amendments and other ballot measures, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

This bill appropriates $137,246 from the General Fund in augmentation of Item 39 of the Budget Act of 1956 to the Secretary of State for the printing of constitutional amendments and other ballot measures. There is an urgent need for the immediate payment of this sum into the Printing Revolving Fund in order that this fund may meet the current heavy charges against it for legislative printing. Accordingly, the funds provided by this bill should be made available as speedily as possible.

I therefore recommend consideration of Senate Bill No. 494 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

Recommendation of the Governor

In accordance with Article IV, Section 34, of the Constitution, the Governor presented the following communication recommending the consideration of Senate Bill No. 1241.

STATE OF CALIFORNIA, GOVERNOR'S OFFICE
SACRAMENTO, March 19, 1957

To the Honorable Members of the Senate
Sacramento, California

GENTLEMEN:

Senate Bill No. 1241, "An act to add Section 10 to the State Construction Program Bond Act of 1955 (Chapter 1709 of Statutes of 1955), relating to the building needs of the State by the adoption of a general construction program, and making an appropriation, declaring the urgency thereof, to take effect immediately,"

in my opinion constitutes an emergency bill within the meaning of that term as used in Section 34 of Article IV of the Constitution of the State of California, the consideration of which should not await the final enactment of the Budget Bill.

At the last general election, the people approved the sale of bonds of this State in the sum of $200,000,000 to carry out the state construction program contemplated by the State Construction Program Bond Act of 1955. This bill authorizes advances upon order of the Director of Finance from the General Fund of an amount not to exceed the unsold bonds which the State Construction Program Committee has authorized for sale to carry out this needed construction program. This will enable the State to proceed immediately on the urgently needed building projects authorized at the 1956 Budget Session to meet the critical shortage of physical facilities for the operation of custodial, mental treatment, education, administrative, military and other agencies of the State. When the bonds are sold, the advances made will be returned to the General Fund. Accordingly, this bill should be acted upon as speedily as possible.

I therefore recommend consideration of Senate Bill No. 1241 as an emergency measure.

Respectfully submitted,

GOODWIN J. KNIGHT, Governor

"SECTION 1. In order to bring about the most expeditious integrated construction and operation of the San Luis Project, authorized as a part of the State's Feather River Project by Section 11260 of the Water Code, and proposed also under bills before the Eighty-fifth Congress to be authorized as a unit of the Federal Central Valley Project for water service to approximately 500,000 acres of land in Merced, Fresno and Kings Counties, the State Department of Water Resources is authorized to assist and cooperate with the United States Department of the Interior in the planning, financing, construction and operation of those facilities of the San Luis Project which may be jointly used by the State and the United States.

SEC. 2. To further the purposes expressed in Section 1, the Department of Water Resources is authorized to enter into an agreement with the United States which may provide, among other things, that:

(a) The project works and features to be constructed by the United States shall be so designed and constructed as to permit (i) immediate integration and coordinated operation with the State's water projects and/or (ii) such subsequent enlargement or other modification as may be required for integration and coordinated operation therewith.

(b) The State shall make available to the United States during the construction period sufficient funds to pay an appropriate share of the construction costs of any facilities designed and constructed as provided in paragraph (a) above. The State contribution shall be made in annual installments, each of which bears approximately the same ratio to total expenditures during that year as the total of the State's share bears to the total cost of the facilities.

(c) The State may at any time after approval of its plans by the United States and at its own expense enlarge or modify San Luis Dam and Reservoir and other facilities to be used jointly by the State and the United States, but the performance of such work shall be so carried on as not to interfere with the operation of the San Luis unit for the purposes set forth in Section 1 of this act.

(d) The State shall pay normally an appropriate service charge in connection with, and/or an appropriate share of the operation, maintenance and replacement costs of, those features of the San Luis unit which are used or designed to be used jointly by the United States and the State and any other features of the Central Valley Project which are of service to the State.

(e) Upon completion of repayment of those portions of the reimbursable federal costs of constructing the Central Valley Project which are assignable to the San Luis unit, title to the facilities of the San Luis unit shall, upon request of the State, be conveyed to the State. Upon such conveyance, the State shall assume the obligation and responsibility of providing water service to the users of the San Luis unit service area.

(f) Promptly after execution of this agreement between the United States and the State, the State shall convey to the United States title to any lands, easements, and rights-of-way which it then owns and which are required for facilities of the San Luis unit to be used jointly by the United States and the State. The State shall be given credit for the costs of these lands, easements, and rights of way toward its share of the construction cost of the San Luis unit. The State shall also be given credit for any funds advanced by it to the United States for preparation of designs and specifications or for any other work in connection with the San Luis unit.

(g) The United States shall have unrestricted use of such capacities in the works of the San Luis unit which are used jointly by the United States and the State as shall be required to carry out the purposes of Section 1 of this act. Such unrestricted use shall extend throughout the repayment period and so long thereafter as title to the works remains in the United States.

(h) The State shall have unrestricted use of the remainder of the capacity of San Luis Reservoir and of other jointly used facilities for water service outside the San Luis unit service area solely under the jurisdiction of the State.

(i) The United States may turn over to the State the care, operation, and maintenance of any works of the San Luis unit which are used jointly by the United States and the State at such time and under such conditions as shall be agreed upon by the United States and the State.

(j) Notwithstanding transfer of title or of the care, operation and maintenance of any works to the State, as hereinbefore provided, any organization which has theretofore entered into a contract with the United States under the Reclamation Project Act of 1939 for a water supply through the works of the San Luis unit shall continue to have and to enjoy the same rights which it would have had under its contract with the United States and the provisions of paragraph (4) of Section 1 of the act of July 2, 1956, (70 Stat. 483, 43 U. S. C., Sec. 485h-1) in the absence of such transfer, and its enjoyment of such rights shall be without added cost or other detriment arising from such transfer.

(k) If a nonreimbursable allocation to the preservation and propagation of fish and wildlife has been made as provided in Section 2 of the act of August 14, 1946 (60 Stat. 1080, 16 U. S. C., Sec. 662), the features of the unit to which such allocation is attributable shall, notwithstanding transfer of title or of the care, operation, and maintenance to the State, be operated and maintained in such wise as to retain the bases upon which such allocation is premised and, upon failure so to operate and maintain those features, the amount allocated thereto shall become a reimbursable cost to be paid by the State.

SEC. 3. The authority given the Department of Water Resources in Section 2 shall not be exercised until the enactment of federal legislation to authorize federal participation in the construction and operation of the San Luis Project and to authorize the Department of the Interior to enter into the cooperative agreement mentioned in Section 2 of this act.

SEC. 4. The Department of Water Resources is further authorized to advance to the United States Department of the Interior from any money appropriated to the Department of Water Resources for such purposes funds for the preparation of designs and specifications of facilities and other technical studies preliminary to construction of the San Luis Project which may be jointly used by the State and the United States; provided, that, the amount of such advances shall not exceed the sum of one million dollars ($1,000,000); and provided further, that if the joint use facilities are constructed under an agreement between the State and the United States the United States shall credit the State in accordance with subsection (f) of Section 2 of this act or if the said agreement between the State and the United States is not executed the United States shall reimburse the State for such advances or shall make available to the State the designs and specifications and other data so prepared.

Amendment No. 1

On page 2 of the printed bill, strike out lines 38 to 51, and on page 3, strike out lines 1 and 2, and insert

"If the contractor asserts that the claim upon which any such notice is based, or out of which it arises, is either: (1) not included within the types or classifications of claims referred to in this Section, or (2) that the claimant is not one of the persons mentioned in Sections 1181 and 1184.1, or (3) that the amount of the claim as specified in such notice is excessive, or (4) that there is no basis in law for the claim as referred to and set out in such notice, then, on any such ground, or any combination thereof, such contractor may avail himself of the right to prepare and deliver to the department head, board, commission, or officer thereof, to whom such notice was given, an affidavit and a copy thereof alleging any one or more of the grounds hereinabove set out, and claiming that the moneys or bonds withheld by such officer, or any part of either such moneys or bonds, are being withheld improperly or in an excessive amount, and further demanding the release of all or such portion of such moneys or bonds as is alleged to be withheld improperly or in an excessive amount. Such affidavit shall state all of the facts necessary to support the claim of the contractor, and shall also state his address within this State for the purpose of permitting service by mail upon him of any counter-affidavit, notice or motion, or other notice or legal document.

The department head, board, commission, or officer thereof, shall serve upon the claimant, either personally or by mail, a copy of the affidavit, together with a written notice stating that the affidavit and demand for release has been received and that such department head, board, commission, or officer thereof, will release such moneys or bonds or such portion of either as has been demanded, unless the claimant files with such department head, board, commission, or officer thereof, a counter-affidavit on or before a time designated in the notice, which shall be not less than 10 nor more than 15 days after service of the copy of such affidavit. Service by mail shall be complete by placing the notice and copy of the affidavit in a sealed envelope addressed to the last known address of the claimant, registered with return receipt requested, and depositing it in the United States mail with postage fully prepaid. Proof of service, either personally or by mail, shall be made by an affidavit.

If the claimant desires to contest the contractor's affidavit and demand for release, he shall, within the time allowed, file with the department head, board, commission, or officer thereof, a counter-affidavit alleging the details of his claim and shall also set forth in detail the specific basis upon which he contests or rebuts the claim or claims of the contractor, together with proof of service of a copy of such counter-affidavit upon the contractor.

The department head, board, commission, or officer thereof, shall not be responsible for the validity of said affidavit or counter-affidavit.

If no such counter-affidavit with proof of service is filed with the department head, board, commission, or officer thereof, within the time allowed, then such department head, commission, or officer thereof, shall forthwith release the moneys or bonds, or such portion thereof as has been demanded by such affidavit, without further notice to the claimant and shall not be liable in any manner for making such release.

If such counter-affidavit, together with proof of service, is so filed, either the contractor or the claimant may file an action in the appropriate superior court for a declaration of his rights in and to such moneys or bonds as have been withheld under the original notice, together with such other relief as may be appropriate. After the filing of a suit requesting such a declaration of rights, either the contractor or the claimant shall be entitled to a hearing in the court in which the action is pending for the purpose of determining his rights under the affidavit and demand for release of such moneys or bonds or any portion of either of them and the counter-affidavit. Such hearing must be granted by the court upon motion of either party, and such hearing must be had within 15 days from the date of making of such motion, unless continued by the court for good cause. The party making the motion for hearing must give not less than five days notice in writing of such hearing to the department head, board, commission, or officer thereof, and to the other party, and shall specify in the notice that the hearing is for the purpose of determining the sufficiency of and the issues involved in the demand for release of such moneys or bonds. The notice may be of the motion or of the hearing, and upon the filing of the notice with the clerk of the court, the motion is deemed made.

At such hearing, the contractor who has filed the affidavit and made the demand for the release of such moneys or bonds shall have the burden of proof. The affidavit and counter-affidavits shall be filed with the court by the department head, board, commission, or officer thereof, who received them, and they shall constitute the pleadings, subject to the power of the court to permit an amendment in the interest of justice. The affidavit of the contractor shall be deemed controverted by the counter-affidavit, and both shall be received in evidence.

Nothing herein contained shall be construed to deprive any party of the right of a jury trial in any case where such right is given by the constitution, but a jury trial may be waived in any such case in like manner as in the trial of an action. No findings shall be required in a proceeding under this Section. When the hearing is before the court sitting without a jury and no evidence other than the affidavit and counter-affidavit is offered, if the court is satisfied that sufficient facts are shown thereby, it may make its determination thereon, otherwise, it shall order the hearing continued for the production of other evidence, oral or documentary, or the filing of other affidavits and counter-affidavits. At the conclusion of the hearing, the court shall make and enter its order determining whether the demand for release of such moneys or bonds shall be allowed or not, which order shall be determinative as to the right of the claimant to have the moneys or bonds further withheld by the department head, board, commission, or officer thereof. The contractor shall, either personally or by mail, serve a copy of said order on the appropriate department head, board, commission, or officer thereof."

Amendment read, and adopted.

O God, through Whose help and protection we have been brought thus far in the grave duty of drafting laws for the government of Thy people, watch over us this day—that the work Thou hast allowed us to begin may be prudently continued and wisely brought to completion through Thy assistance. We are fully aware, O Lord, that all authority is from Thee and that the work of this Senate will be successful only if guided and helped by Thy grace. Assist us then with Thy holy spirit of counsel and fortitude so that the work before us might be conducted in righteousness and be eminently useful to all our people. Let the light of Thy divine wisdom direct all our deliberations and may it shine forth in all the proceedings and laws framed here for our rule and government. Be with us then this day—deny us not, O God, the help of Thy grace—give us strength to avoid everything which You forbid and to practice the good that You have commanded.
